CWM TAF MORGANNWG UNIVERSITY HEALTH BOARD

FOREWORD

These accounts have been prepared by the Local Health Board under schedule 9 section 178 Para 3(1) of the National Health Service (Wales) Act 2006 (c.42) in the form in which the Welsh Ministers have, with the approval of the Treasury, directed.

Statutory background

The Local Health Board was established on 1 October 2009 following the merger of Cwm Taf NHS Trust, Rhondda Cynon Taf Local Health Board and Merthyr Tydfil Local Health Board.

The Welsh Health Specialised Services Committee (WHSSC) was established on 1 April 2010, responsible for the joint planning of specialised and tertiary services on behalf of Local Health Boards in Wales. The Committee is hosted by Cwm Taf Morgannwg University Local Health Board.

The Emergency Ambulance Services Committee (EASC) was established on 1 April 2014, responsible for planning and securing the provision of emergency ambulance services on behalf of Local Health Boards in Wales. The Committee is hosted by Cwm Taf Morgannwg University Local Health Board.

Following the Bridgend boundary change on 1 April 2019, Cwm Taf Morgannwg University Health Board has responsibility for the commissioning and provision of healthcare for the communities of Merthyr Tydfil, Rhondda Cynon Taf and Bridgend County Borough Council.

Performance Management and Financial Results

Welsh Health Circular WHC/2016/054 replaces WHC/2015/014 'Statutory and Administrative Financial Duties of NHS Trusts and Local Health Boards' and further clarifies the statutory financial duties of NHS Wales bodies and is effective for 2020-21. The annual financial duty has been revoked and the statutory breakeven duty has reverted to a three year duty, with the first assessment of this duty in 2016-17.

Local Health Boards in Wales must comply fully with the Treasury's Financial Reporting Manual to the extent that it is applicable to them. As a result the Primary Statement of in-year income and expenditure is the Statement of Comprehensive Net Expenditure, which shows the net operating cost incurred by the LHB which is funded by the Welsh Government. This funding is allocated on receipt directly to the General Fund in the Statement of Financial Position.

Under the National Health Services Finance (Wales) Act 2014 the annual requirement to achieve balance against Resource Limits has been replaced with a duty to ensure, in a rolling 3 year period, that its aggregate expenditure does not exceed its aggregate approved limits.

The Act came into effect from 1 April 2014 and under the Act the first assessment of the 3 year rolling financial duty took place at the end of 2016-17.

These accounts are a consolidation of the Health Board, WHSSC and EASC activities, with the balances relating to Cwm Taf Morgannwg University Health Board only separately disclosed where appropriate.

Statement of Comprehensive Net Expenditure for the year ended 31 March 2022

Notes to the Accounts

1. Accounting policies

The Minister for Health and Social Services has directed that the financial statements of Local Health Boards (LHB) in Wales shall meet the accounting requirements of the NHS Wales Manual for Accounts. Consequently, the following financial statements have been prepared in accordance with the 2021-22 Manual for Accounts. The accounting policies contained in that manual follow the 2021-22 Financial Reporting Manual (FReM), in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006, except for IFRS 16 Leases, which is deferred until 1 April 2022; to the extent that they are meaningful and appropriate to the NHS in Wales.

Where the LHB Manual for Accounts permits a choice of accounting policy, the accounting policy which is judged to be most appropriate to the particular circumstances of the LHB for the purpose of giving a true and fair view has been selected. The particular policies adopted by the LHB are described below. They have been applied consistently in dealing with items considered material in relation to the accounts.

1.1. Accounting convention

These accounts have been prepared under the historical cost convention modified to account for the revaluation of property, plant and equipment, intangible assets and inventories.

1.2. Acquisitions and discontinued operations

Activities are considered to be 'acquired' only if they are taken on from outside the public sector. Activities are considered to be 'discontinued' only if they cease entirely. They are not considered to be 'discontinued' if they transfer from one public sector body to another.

1.3. Income and funding

The main source of funding for the LHBs are allocations (Welsh Government funding) from the Welsh Government within an approved cash limit, which is credited to the General Fund of the LHB. Welsh Government funding is recognised in the financial period in which the cash is received.

Non-discretionary funding outside the Revenue Resource Limit is allocated to match actual expenditure incurred for the provision of specific pharmaceutical, or ophthalmic services identified by the Welsh Government. Non-discretionary expenditure is disclosed in the accounts and deducted from operating costs charged against the Revenue Resource Limit.

Funding for the acquisition of fixed assets received from the Welsh Government is credited to the General Fund.

Miscellaneous income is income which relates directly to the operating activities of the LHB and is not funded directly by the Welsh Government. This includes payment for services uniquely provided by the LHB for the Welsh Government such as funding provided to agencies and non-activity costs incurred by the LHB in its provider role. Income received from LHBs transacting with other LHBs is always treated as miscellaneous income.

From 2018-19, IFRS 15 Revenue from Contracts with Customers has been applied, as interpreted and adapted for the public sector, in the FREM. It replaces the previous standards IAS 11 Construction Contracts and IAS 18 Revenue and related IFRIC and SIC interpretations. The potential amendments

identified as a result of the adoption of IFRS 15 are significantly below materiality levels.

Income is accounted for applying the accruals convention. Income is recognised in the period in which services are provided. Where income had been received from third parties for a specific activity to be delivered in the following financial year, that income will be deferred.

Only non-NHS income may be deferred.

1.3.1. WHSSC/EASC

Neither Welsh Health Specialised Services Committee nor Emergency Ambulance Services Committee hold any statutory responsibility for a resource limit. Services are funded by income from LHBs and based on an agreed financial plan. The committees account for all expenditure on agreed services against the income received as part of their plans. All variances from plan are allocated to LHBs on the basis of an agreed risk sharing framework and matched by income adjustments consistent with this framework. The net operating cost for the financial year is therefore zero.

1.4. Employee benefits

1.4.1. Short-term employee benefits

Salaries, wages and employment-related payments are recognised in the period in which the service is received from employees. The cost of leave earned but not taken by employees at the end of the period is recognised in the financial statements to the extent that employees are permitted to carry forward leave into the following period.

1.4.2. Retirement benefit costs

Past and present employees are covered by the provisions of the NHS Pensions Scheme. The scheme is an unfunded, defined benefit scheme that covers NHS employers, General Practices and other bodies, allowed under the direction of the Secretary of State, in England and Wales. The scheme is not designed to be run in a way that would enable NHS bodies to identify their share of the underlying scheme assets and liabilities. Therefore, the scheme is accounted for as if it were a defined contribution scheme: the cost to the NHS body of participating in the scheme is taken as equal to the contributions payable to the scheme for the accounting period.

The latest NHS Pension Scheme valuation results indicated that an increase in benefit required a 6.3% increase (14.38% to 20.68%) which was implemented from 1 April 2019.

As an organisation within the full funding scope, the joint (in NHS England and NHS Wales) transitional arrangement operated from 2019-20 where employers in the Scheme would continue to pay 14.38% employer contributions under their normal monthly payment process, in Wales the additional 6.3% being funded by Welsh Government directly to the Pension Scheme administrator, the NHS Business Services Authority (BSA the NHS Pensions Agency).

However, NHS Wales' organisations are required to account for **their staff** employer contributions of 20.68% in full and on a gross basis, in their annual accounts. Payments made on their behalf by Welsh Government are accounted for on a notional basis. For detailed information see Other Note within these accounts.

For early retirements other than those due to ill health the additional pension liabilities are not funded by the scheme. The full amount of the liability for the additional costs is charged to expenditure at the time

the NHS Wales organisation commits itself to the retirement, regardless of the method of payment.

Where employees are members of the Local Government Superannuation Scheme, which is a defined benefit pension scheme this is disclosed. The scheme assets and liabilities attributable to those employees can be identified and are recognised in the NHS Wales organisation's accounts. The assets are measured at fair value and the liabilities at the present value of the future obligations. The increase in the liability arising from pensionable service earned during the year is recognised within operating expenses. The expected gain during the year from scheme assets is recognised within finance income. The interest cost during the year arising from the unwinding of the discount on the scheme liabilities is recognised within finance costs.

1.4.3. NEST Pension Scheme

An alternative pensions scheme for employees not eligible to join the NHS Pensions scheme has to be offered. The NEST (National Employment Savings Trust) Pension scheme is a defined contribution scheme and therefore the cost to the NHS body of participating in the scheme is equal to the contributions payable to the scheme for the accounting period.

1.5. Other expenses

Other operating expenses for goods or services are recognised when, and to the extent that, they have been received. They are measured at the fair value of the consideration payable.

1.6. Property, plant and equipment

1.6.1. Recognition

Property, plant and equipment is capitalised if:

• it is held for use in delivering services or for administrative purposes;

• it is probable that future economic benefits will flow to, or service potential will be supplied to, the NHS Wales organisation;

- it is expected to be used for more than one financial year;
- the cost of the item can be measured reliably; and
- the item has cost of at least £5,000; or

• Collectively, a number of items have a cost of at least £5,000 and individually have a cost of more than £250, where the assets are functionally interdependent, they had broadly simultaneous purchase dates, are anticipated to have simultaneous disposal dates and are under single managerial control; or

• Items form part of the initial equipping and setting-up cost of a new building, ward or unit, irrespective of their individual or collective cost.

Where a large asset, for example a building, includes a number of components with significantly different asset lives, the components are treated as separate assets and depreciated over their own useful economic lives.

1.6.2. Valuation

All property, plant and equipment are measured initially at cost, representing the cost directly attributable to acquiring or constructing the asset and bringing it to the location and condition necessary for it to be capable of operating in the manner intended by management.

Land and buildings used for services or for administrative purposes are stated in the Statement of Financial Position (SoFP) at their revalued amounts, being the fair value at the date of revaluation less any subsequent accumulated depreciation and impairment losses. Revaluations are performed with sufficient regularity to ensure that carrying amounts are not materially different from those that would be determined at the end of the reporting period. Fair values are determined as follows:

- Land and non-specialised buildings market value for existing use
- Specialised buildings depreciated replacement cost

HM Treasury has adopted a standard approach to depreciated replacement cost valuations based on modern equivalent assets and, where it would meet the location requirements of the service being provided, an alternative site can be valued. NHS Wales' organisations have applied these new valuation requirements from 1 April 2009.

Properties in the course of construction for service or administration purposes are carried at cost, less any impairment loss. Cost includes professional fees but not borrowing costs, which are recognised as expenses immediately, as allowed by IAS 23 for assets held at fair value. Assets are revalued and depreciation commences when they are brought into use.

In 2017-18 a formal revaluation exercise was applied to land and properties. The carrying value of existing assets at that date will be written off over their remaining useful lives and new fixtures and equipment are carried at depreciated historic cost as this is not considered to be materially different from fair value.

An increase arising on revaluation is taken to the revaluation reserve except when it reverses an impairment for the same asset previously recognised in expenditure, in which case it is credited to expenditure to the extent of the decrease previously charged there. A revaluation decrease that does not result from a loss of economic value or service potential is recognised as an impairment charged to the revaluation reserve to the extent that there is a balance on the reserve for the asset and, thereafter, to expenditure. Impairment losses that arise from a clear consumption of economic benefit should be taken to expenditure.

References in IAS 36 to the recognition of an impairment loss of a revalued asset being treated as a revaluation decrease to the extent that the impairment does not exceed the amount in the revaluation surplus for the same asset, are adapted such that only those impairment losses that do not result from a clear consumption of economic benefit or reduction of service potential (including as a result of loss or damage resulting from normal business operations) should be taken to the revaluation reserve. Impairment losses that arise from a clear consumption of economic benefit should be taken to the Statement of Comprehensive Net Expenditure (SoCNE).

From 2015-16, IFRS 13 Fair Value Measurement must be complied with in full. However IAS 16 and IAS 38 have been adapted for the public sector context which limits the circumstances under which a valuation is prepared under IFRS 13. Assets which are held for their service potential and are in use should be measured at their current value in existing use. For specialised assets current value in existing use should be interpreted as the present value of the assets remaining service potential, which can be assumed to be at least equal to the cost of replacing that service potential. Where there is no single class of asset that falls within IFRS 13, disclosures should be for material items only.

In accordance with the adaptation of IAS 16 in table 6.2 of the FReM, for non-specialised assets in

operational use, current value in existing use is interpreted as market value for existing use which is defined in the RICS Red Book as Existing Use Value (EUV).

Assets which were most recently held for their service potential but are surplus should be valued at current value in existing use, if there are restrictions on the NHS organisation or the asset which would prevent access to the market at the reporting date. If the NHS organisation could access the market then the surplus asset should be used at fair value using IFRS 13. In determining whether such an asset which is not in use is surplus, an assessment should be made on whether there is a clear plan to bring the asset back into use as an operational asset. Where there is a clear plan, the asset is not surplus and the current value in existing use should be maintained. Otherwise the asset should be assessed as being surplus and valued under IFRS13.

Assets which are not held for their service potential should be valued in accordance with IFRS 5 or IAS 40 depending on whether the asset is actively held for sale. Where an asset is not being used to deliver services and there is no plan to bring it back into use, with no restrictions on sale, and it does not meet the IAS 40 and IFRS 5 criteria, these assets are surplus and are valued at fair value using IFRS 13.

1.6.3. Subsequent expenditure

Where subsequent expenditure enhances an asset beyond its original specification, the directly attributable cost is capitalised. Where subsequent expenditure restores the asset to its original specification, the expenditure is capitalised and any carrying value of the item replaced is written-out and charged to the SoCNE. As highlighted in previous years the NHS in Wales does not have systems in place to ensure that all items being "replaced" can be identified and hence the cost involved to be quantified. The NHS in Wales has thus established a national protocol to ensure it complies with the standard as far as it is able to which is outlined in the capital accounting chapter of the Manual For Accounts. This dictates that to ensure that asset carrying values are not materially overstated. For All Wales Capital Schemes that are completed in a financial year, NHS Wales organisations are required to obtain a revaluation during that year (prior to them being brought into use) and also similar revaluations are needed for all Discretionary Building Schemes completed which have a spend greater than £0.5m. The write downs so identified are then charged to operating expenses.

1.7. Intangible assets

1.7.1. Recognition

Intangible assets are non-monetary assets without physical substance, which are capable of sale separately from the rest of the business or which arise from contractual or other legal rights. They are recognised only when it is probable that future economic benefits will flow to, or service potential be provided to, the NHS Wales organisation; where the cost of the asset can be measured reliably, and where the cost is at least £5,000.

Intangible assets acquired separately are initially recognised at fair value. Software that is integral to the operating of hardware, for example an operating system, is capitalised as part of the relevant item of property, plant and equipment. Software that is not integral to the operation of hardware, for example application software, is capitalised as an intangible asset. Expenditure on research is not capitalised: it is recognised as an operating expense in the period in which it is incurred. Internally-generated assets are recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use
- the intention to complete the intangible asset and use it
- the ability to use the intangible asset
- how the intangible asset will generate probable future economic benefits
- the availability of adequate technical, financial and other resources to complete the intangible asset and use it

• the ability to measure reliably the expenditure attributable to the intangible asset during its development.

Measurement

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the criteria above are initially met. Where no internally-generated intangible asset can be recognised, the expenditure is recognised in the period in which it is incurred.

Following initial recognition, intangible assets are carried at fair value by reference to an active market, or, where no active market exists, at amortised replacement cost (modern equivalent assets basis), indexed for relevant price increases, as a proxy for fair value. Internally-developed software is held at historic cost to reflect the opposing effects of increases in development costs and technological advances.

1.8. Depreciation, amortisation and impairments

Freehold land, assets under construction and assets held for sale are not depreciated.

Otherwise, depreciation and amortisation are charged to write off the costs or valuation of property, plant and equipment and intangible non-current assets, less any residual value, over their estimated useful lives, in a manner that reflects the consumption of economic benefits or service potential of the assets. The estimated useful life of an asset is the period over which the NHS Wales Organisation expects to obtain economic benefits or service potential from the asset. This is specific to the NHS Wales organisation and may be shorter than the physical life of the asset itself. Estimated useful lives and residual values are reviewed each year end, with the effect of any changes recognised on a prospective basis. Assets held under finance leases are depreciated over the shorter of the lease term and estimated useful lives.

At each reporting period end, the NHS Wales organisation checks whether there is any indication that any of its tangible or intangible non-current assets have suffered an impairment loss. If there is indication of an impairment loss, the recoverable amount of the asset is estimated to determine whether there has been a loss and, if so, its amount. Intangible assets not yet available for use are tested for impairment annually.

Impairment losses that do not result from a loss of economic value or service potential are taken to the revaluation reserve to the extent that there is a balance on the reserve for the asset and, thereafter, to the SoCNE. Impairment losses that arise from a clear consumption of economic benefit are taken to the SoCNE. The balance on any revaluation reserve (up to the level of the impairment) to which the impairment would have been charged under IAS 36 are transferred to retained earnings.

1.9. Research and Development

Research and development expenditure is charged to operating costs in the year in which it is incurred, except insofar as it relates to a clearly defined project, which can be separated from patient care activity and benefits there from can reasonably be regarded as assured. Expenditure so deferred is limited to the value of future benefits expected and is amortised through the SoCNE on a systematic basis over the period expected to benefit from the project.

1.10 Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met when the sale is highly probable, the asset is available for immediate sale in its present condition and management is committed to the sale, which is expected to qualify for recognition as a completed sale within one year from the date of classification. Non-current assets held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell. Fair value is open market value including alternative uses.

The profit or loss arising on disposal of an asset is the difference between the sale proceeds and the carrying amount and is recognised in the SoCNE. On disposal, the balance for the asset on the revaluation reserve, is transferred to the General Fund.

Property, plant and equipment that is to be scrapped or demolished does not qualify for recognition as held for sale. Instead it is retained as an operational asset and its economic life adjusted. The asset is derecognised when it is scrapped or demolished.

1.11. Leases

Leases are classified as finance leases when substantially all the risks and rewards of ownership are transferred to the lessee. All other leases are classified as operating leases.

1.11.1. The NHS Wales organisation as lessee

Property, plant and equipment held under finance leases are initially recognised, at the inception of the lease, at fair value or, if lower, at the present value of the minimum lease payments, with a matching liability for the lease obligation to the lessor. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to the SoCNE.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. Lease incentives are recognised initially as a liability and subsequently as a reduction of rentals on a straight-line basis over the lease term. Contingent rentals are recognised as an expense in the period in which they are incurred.

Where a lease is for land and buildings, the land and building components are separated and individually assessed as to whether they are operating or finance leases.

1.11.2. The NHS Wales organisation as lessor

Amounts due from lessees under finance leases are recorded as receivables at the amount of the NHS Wales organisation net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the NHS Wales organisation's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

1.12. Inventories

Whilst it is accounting convention for inventories to be valued at the lower of cost and net realisable value using the weighted average or "first-in first-out" cost formula, it should be recognised that the NHS is a special case in that inventories are not generally held for the intention of resale and indeed there is no market readily available where such items could be sold. Inventories are valued at cost and this is

considered to be a reasonable approximation to fair value due to the high turnover of stocks. Work-inprogress comprises goods in intermediate stages of production. Partially completed contracts for patient services are not accounted for as work-in-progress.

1.13. Cash and cash equivalents

Cash is cash in hand and deposits with any financial institution repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in 3 months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value. In the Statement of Cash flows (SoCF), cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and that form an integral part of the cash management.

1.14. Provisions

Provisions are recognised when the NHS Wales organisation has a present legal or constructive obligation as a result of a past event, it is probable that the NHS Wales organisation will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the expenditure required to settle the obligation at the end of the reporting period, taking into account the risks and uncertainties. Where a provision is measured using the cash flows estimated to settle the obligation, its carrying amount is the present value of those cash flows using the discount rate supplied by HM Treasury.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursements will be received and the amount of the receivable can be measured reliably.

Present obligations arising under onerous contracts are recognised and measured as a provision. An onerous contract is considered to exist where the NHS Wales organisation has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it.

A restructuring provision is recognised when the NHS Wales organisation has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out

the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring, which are those amounts that are both necessarily entailed by the restructuring and not associated with ongoing activities of the entity.

1.14.1. Clinical negligence and personal injury costs

The Welsh Risk Pool Services (WRPS) operates a risk pooling scheme which is co-funded by the Welsh Government with the option to access a risk sharing agreement funded by the participative NHS Wales bodies. The risk sharing option was implemented in both 2020-21 and 2019-20. The WRP is hosted by Velindre NHS Trust.

1.14.2. Future Liability Scheme (FLS) - General Medical Practice Indemnity (GMPI)

The FLS is a state backed scheme to provide clinical negligence General Medical Practice Indemnity (GMPI) for providers of GMP services in Wales.

In March 2019, the Minister issued a Direction to Velindre NHS Trust to enable Legal and Risk Services to operate the Scheme. The GMPI is underpinned by new secondary legislation, The NHS (Clinical Negligence Scheme) (Wales) Regulations 2019 which came into force on 1 April 2019.

GMP Service Providers are not direct members of the GMPI FLS, their qualifying liabilities are the subject of an arrangement between them and their relevant LHB, which is a member of the scheme. The qualifying reimbursements to the LHB are not subject to the £25,000 excess.

1.15. Financial Instruments

From 2018-19 IFRS 9 Financial Instruments has applied, as interpreted and adapted for the public sector, in the FReM. The principal impact of IFRS 9 adoption by NHS Wales' organisations, was to change the calculation basis for bad debt provisions, changing from an incurred loss basis to a lifetime expected credit loss (ECL) basis.

All entities applying the FReM recognised the difference between previous carrying amount and the carrying amount at the beginning of the annual reporting period that included the date of initial application in the opening general fund within Taxpayer's equity.

1.16. Financial assets

Financial assets are recognised on the SoFP when the NHS Wales organisation becomes party to the financial instrument contract or, in the case of trade receivables, when the goods or services have been delivered. Financial assets are derecognised when the contractual rights have expired or the asset has been transferred.

The accounting policy choice allowed under IFRS 9 for long term trade receivables, contract assets which do contain a significant financing component (in accordance with IFRS 15), and lease receivables within the scope of IAS 17 has been withdrawn and entities should always recognise a loss allowance at an amount equal to lifetime Expected Credit Losses. All entities applying the FReM should utilise IFRS 9's simplified approach to impairment for relevant assets.

IFRS 9 requirements required a revised approach for the calculation of the bad debt provision, applying the principles of expected credit loss, using the practical expedients within IFRS 9 to construct a provision matrix.

1.16.1. Financial assets are initially recognised at fair value

Financial assets are classified into the following categories: financial assets 'at fair value through SoCNE'; 'held to maturity investments'; 'available for sale' financial assets, and 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

1.16.2. Financial assets at fair value through SoCNE

Embedded derivatives that have different risks and characteristics to their host contracts, and contracts with embedded derivatives whose separate value cannot be ascertained, are treated as financial assets at fair value through SoCNE. They are held at fair value, with any resultant gain or loss recognised in the SoCNE. The net gain or loss incorporates any interest earned on the financial asset.

1.16.3 Held to maturity investments

Held to maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity, and there is a positive intention and ability to hold to maturity. After initial recognition, they are held at amortised cost using the effective interest method, less any impairment. Interest is recognised using the effective interest method.

1.16.4. Available for sale financial assets

Available for sale financial assets are non-derivative financial assets that are designated as available for sale or that do not fall within any of the other three financial asset classifications. They are measured at fair value with changes in value taken to the revaluation reserve, with the exception of impairment losses. Accumulated gains or losses are recycled to the SoCNE on de-recognition.

1.16.5. Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments which are not quoted in an active market. After initial recognition, they are measured at amortised cost using the effective interest method, less any impairment. Interest is recognised using the effective interest method.

Fair value is determined by reference to quoted market prices where possible, otherwise by valuation techniques.

The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, to the net carrying amount of the financial asset.

At the SOFP date, the NHS Wales organisation assesses whether any financial assets, other than those held at 'fair value through profit and loss' are impaired. Financial assets are impaired and impairment losses recognised if there is objective evidence of impairment as a result of one or more events which occurred after the initial recognition of the asset and which has an impact on the estimated future cash flows of the asset. For financial assets carried at amortised cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate. The loss is recognised in the SoCNE and the carrying amount of the asset is reduced directly, or through a provision of impairment of receivables.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through the SoCNE to the extent that the carrying amount of the receivable at the date of the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

1.17. Financial liabilities

Financial liabilities are recognised on the SOFP when the NHS Wales organisation becomes party to the contractual provisions of the financial instrument or, in the case of trade payables, when the goods or services have been received. Financial liabilities are de-recognised when the liability has been discharged, that is, the liability has been paid or has expired.

1.17.1. Financial liabilities are initially recognised at fair value

Financial liabilities are classified as either financial liabilities at fair value through the SoCNE or other financial liabilities.

1.17.2. Financial liabilities at fair value through the SoCNE

Embedded derivatives that have different risks and characteristics to their host contracts, and contracts with embedded derivatives whose separate value cannot be ascertained, are treated as financial liabilities at fair value through profit and loss. They are held at fair value, with any resultant gain or loss recognised in the SoCNE. The net gain or loss incorporates any interest earned on the financial asset.

1.17.3. Other financial liabilities

After initial recognition, all other financial liabilities are measured at amortised cost using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash payments through the life of the asset, to the net carrying amount of the financial liability. Interest is recognised using the effective interest method.

1.18. Value Added Tax (VAT)

Most of the activities of the NHS Wales organisation are outside the scope of VAT and, in general, output tax does not apply and input tax on purchases is not recoverable. Irrecoverable VAT is charged to the relevant expenditure category or included in the capitalised purchase cost of fixed assets. Where output tax is charged or input VAT is recoverable, the amounts are stated net of VAT.

1.19. Foreign currencies

Transactions denominated in a foreign currency are translated into sterling at the exchange rate ruling on the dates of the transactions. Resulting exchange gains and losses are taken to the SoCNE. At the SoFP date, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the reporting date.

1.20. Third party assets

Assets belonging to third parties (such as money held on behalf of patients) are not recognised in the accounts since the NHS Wales organisation has no beneficial interest in them. Details of third party assets are given in the Notes to the accounts.

1.21. Losses and Special Payments

Losses and special payments are items that the Welsh Government would not have contemplated when it agreed funds for the health service or passed legislation. By their nature they are items that ideally should not arise. They are therefore subject to special control procedures compared with the generality of payments. They are divided into different categories, which govern the way each individual case is handled.

Losses and special payments are charged to the relevant functional headings in the SoCNE on an accruals basis, including losses which would have been made good through insurance cover had the NHS Wales organisation not been bearing their own risks (with insurance premiums then being included as normal revenue expenditure). However, the note on losses and special payments is compiled directly from the losses register which is prepared on a cash basis.

The NHS Wales organisation accounts for all losses and special payments gross (including assistance from the WRP).

The NHS Wales organisation accrues or provides for the best estimate of future pay-outs for certain liabilities and discloses all other potential payments as contingent liabilities, unless the probability of the liabilities becoming payable is remote.

All claims for losses and special payments are provided for, where the probability of settlement of an individual claim is over 50%. Where reliable estimates can be made, incidents of clinical negligence against which a claim has not, as yet, been received are provided in the same way. Expected reimbursements from the WRP are included in debtors. For those claims where the probability of settlement is between 5- 50%, the liability is disclosed as a contingent liability.

1.22. Pooled budget

The NHS Wales organisation has entered into pooled budgets with Local Authorities. Under the arrangements funds are pooled in accordance with section 33 of the NHS (Wales) Act 2006 for specific activities defined in the Pooled budget Note.

The pool budget is hosted by one NHS Wales's organisation. Payments for services provided are accounted for as miscellaneous income. The NHS Wales organisation accounts for its share of the assets, liabilities, income and expenditure from the activities of the pooled budget, in accordance with the pooled budget arrangement.

1.23. Critical Accounting Judgements and key sources of estimation uncertainty

In the application of the accounting policies, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources.

The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from those estimates. The estimates and underlying assumptions are continually reviewed. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or the period of the revision and future periods if the revision affects both current and future periods.

Significant estimations are made in relation to the accruals/creditors for the bonus payments and the annual leave accrual.

1.24. Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the SoFP date, that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Significant estimations are made in relation to on-going clinical negligence and personal injury claims. Assumptions as to the likely outcome, the potential liabilities and the timings of these litigation claims are provided by independent legal advisors. Any material changes in liabilities associated with these

claims would be recoverable through the Welsh Risk Pool.

Significant estimations are also made for continuing care costs resulting from claims post 1 April 2003. An assessment of likely outcomes, potential liabilities and timings of these claims are made on a case by case basis. Material changes associated with these claims would be adjusted in the period in which they are revised.

Estimates are also made for contracted primary care services. These estimates are based on the latest payment levels. Changes associated with these liabilities are adjusted in the following reporting period.

1.24.1. Provisions

The NHS Wales organisation provides for legal or constructive obligations for clinical negligence, personal injury and defence costs that are of uncertain timing or amount at the balance sheet date on the basis of the best estimate of the expenditure required to settle the obligation.

Claims are funded via the Welsh Risk Pool Services (WRPS) which receives an annual allocation from Welsh Government to cover the cost of reimbursement requests submitted to the bi-monthly WRPS Committee. Following settlement to individual claimants by the NHS Wales organisation, the full cost is recognised in year and matched to income (less a £25K excess) via a WRPS debtor, until reimbursement has been received from the WRPS Committee.

1.24.2. Probable & Certain Cases – Accounting Treatment

A provision for these cases is calculated in accordance with IAS 37. Cases are assessed and divided into four categories according to their probability of settlement;

Remote	Probability of Settlement	0 – 5%
	Accounting Treatment	Contingent Liability.
Possible	Probability of Settlement	6% - 49%
	Accounting Treatment	Defence Fee - Provision*
	Contingent Liability for all other estimated expenditure.	
Probable	Probability of Settlement	50% - 94%
	Accounting Treatment	Full Provision
Certain	Probability of Settlement	95% - 100%
	Accounting Treatment	Full Provision

* Personal injury cases - Defence fee costs are provided for at 100%.

Clinical negligence cases - In accordance with the Manual for Accounts, defence fee provision calculation is based on analysis of historical information covering a three year period. Accordingly, 35.78% of the defence fee costs are accounted for as provision and the remaining 64.22% is accounted for in Contingent Liabilities.

The provision for probable and certain cases is based on case estimates of individual reported claims received by Legal & Risk Services within NHS Wales Shared Services Partnership.

The solicitor will estimate the case value including defence fees, using professional judgement and from obtaining counsel advice. Valuations are then discounted for the future loss elements using individual life expectancies and the Government Actuary's Department actuarial tables (Ogden tables) and Personal Injury Discount Rate of minus 0.25%.

Future liabilities for certain & probable cases with a probability of 95%-100% and 50%- 94% respectively are held as a provision on the balance sheet. Cases typically take a number of years to settle, particularly for high value cases where a period of development is necessary to establish the full extent of the injury caused.

1.25 Discount Rates

Where discount is applied, a disclosure detailing the impact of the discounting on liabilities to be included for the relevant notes. The disclosure should include where possible undiscounted values to demonstrate the impact. An explanation of the source of the discount rate or how the discount rate has been determined to be included.

1.26 Private Finance Initiative (PFI) transactions

HM Treasury has determined that government bodies shall account for infrastructure PFI schemes where the government body controls the use of the infrastructure and the residual interest in the infrastructure at the end of the arrangement as service concession arrangements, following the principles of the requirements of IFRIC 12. The NHS Wales organisation therefore recognises the PFI asset as an item of property, plant and equipment together with a liability to pay for it. The services received under the contract are recorded as operating expenses.

The annual unitary payment is separated into the following component parts, using appropriate estimation techniques where necessary:

- a) Payment for the fair value of services received;
- b) Payment for the PFI asset, including finance costs; and

c) Payment for the replacement of components of the asset during the contract 'lifecycle replacement'.

1.26.1. Services received

The fair value of services received in the year is recorded under the relevant expenditure headings within 'operating expenses'.

1.26.2. PFI asset

The PFI assets are recognised as property, plant and equipment, when they come into use. The assets are measured initially at fair value in accordance with the principles of IAS 17. Subsequently, the assets are measured at fair value, which is kept up to date in accordance with the NHS Wales organisation's approach for each relevant class of asset in accordance with the principles of IAS 16.

1.26.2. PFI liability

A PFI liability is recognised at the same time as the PFI assets are recognised. It is measured initially at the same amount as the fair value of the PFI assets and is subsequently measured as a finance lease liability in accordance with IAS 17.

An annual finance cost is calculated by applying the implicit interest rate in the lease to the opening lease liability for the period, and is charged to 'Finance Costs' within the SoCNE.

The element of the annual unitary payment that is allocated as a finance lease rental is applied to meet the annual finance cost and to repay the lease liability over the contract term.

An element of the annual unitary payment increase due to cumulative indexation is allocated to the finance lease. In accordance with IAS 17, this amount is not included in the minimum lease payments, but is instead treated as contingent rent and is expensed as incurred. In substance, this amount is a finance cost in respect of the liability and the expense is presented as a contingent finance cost in the SoCNE.

1.26.3. Lifecycle replacement

Components of the asset replaced by the operator during the contract ('lifecycle replacement') are capitalised where they meet the NHS Wales organisation's criteria for capital expenditure. They are

capitalised at the time they are provided by the operator and are measured initially at their fair value.

The element of the annual unitary payment allocated to lifecycle replacement is pre-determined for each year of the contract from the operator's planned programme of lifecycle replacement. Where the lifecycle component is provided earlier or later than expected, a short-term finance lease liability or prepayment is recognised respectively.

Where the fair value of the lifecycle component is less than the amount determined in the contract, the difference is recognised as an expense when the replacement is provided. If the fair value is greater than the amount determined in the contract, the difference is treated as a 'free' asset and a deferred income balance is recognised. The deferred income is released to the operating income over the shorter of the remaining contract period or the useful economic life of the replacement component.

1.26.4. Assets contributed by the NHS Wales organisation to the operator for use in the scheme

Assets contributed for use in the scheme continue to be recognised as items of property, plant and equipment in the NHS Wales organisation's SoFP.

1.26.5. Other assets contributed by the NHS Wales organisation to the operator

Assets contributed (e.g. cash payments, surplus property) by the NHS Wales organisation to the operator before the asset is brought into use, which are intended to defray the operator's capital costs, are recognised initially as prepayments during the construction phase of the contract. Subsequently, when the asset is made available to the NHS Wales organisation, the prepayment is treated as an initial payment towards the finance lease liability and is set against the carrying value of the liability.

A PFI liability is recognised at the same time as the PFI assets are recognised. It is measured at the present value of the minimum lease payments, discounted using the implicit interest rate. It is subsequently measured as a finance lease liability in accordance with IAS 17.

On initial recognition of the asset, the difference between the fair value of the asset and the initial liability is recognised as deferred income, representing the future service potential to be received by the NHS Wales organisation through the asset being made available to third party users.

1.27. Contingencies

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the NHS Wales organisation, or a present obligation that is not recognised because it is not probable that a payment will be required to settle the obligation or the amount of the obligation cannot be measured sufficiently reliably. A contingent liability is disclosed unless the possibility of a payment is remote.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the NHS Wales organisation. A contingent asset is disclosed where an inflow of economic benefits is probable.

Where the time value of money is material, contingencies are disclosed at their present value.

Remote contingent liabilities are those that are disclosed under Parliamentary reporting requirements and not under IAS 37 and, where practical, an estimate of their financial effect is required.

1.28. Absorption accounting

Transfers of function are accounted for as either by merger or by absorption accounting dependent upon the treatment prescribed in the FReM. Absorption accounting requires that entities account for their transactions in the period in which they took place with no restatement of performance required.

Where transfer of function is between LHBs the gain or loss resulting from the assets and liabilities transferring is recognised in the SoCNE and is disclosed separately from the operating costs.

1.29. Accounting standards that have been issued but not yet been adopted

The following accounting standards have been issued and or amended by the IASB and IFRIC but have not been adopted because they are not yet required to be adopted by the FReM

IFRS14 Regulatory Deferral Accounts Applies to first time adopters of IFRS after 1 January 2016. Therefore not applicable.

IFRS 16 Leases is to be effective from 1st April 2022.

IFRS 17 Insurance Contracts, Application required for accounting periods beginning on or after 1 January 2021, but not yet adopted by the FReM: early adoption is not therefore permitted.

1.30. Accounting standards issued that have been adopted early

During 2021-22 there have been no accounting standards that have been adopted early. All early adoption of accounting standards will be led by HM Treasury.

1.31. Charities

Following Treasury's agreement to apply IAS 27 to NHS Charities from 1 April 2013, the NHS Wales

organisation has established that as it is the corporate trustee of the Cwm Taf Morgannwg NHS Charitable Fund, it is considered for accounting standards compliance to have control of the Cwm Taf Morgannwg NHS Charitable Fund as a subsidiary and therefore is required to consolidate the results of the Cwm Taf Morgannwg NHS Charitable Fund within the statutory accounts of the NHS Wales organisation.

The determination of control is an accounting standard test of control and there has been no change to the operation of the Cwm Taf Morgannwg NHS Charitable Fund or its independence in its management of charitable funds.

However, the NHS Wales organisation has with the agreement of the Welsh Government adopted the IAS 27 (10) exemption to consolidate. Welsh Government as the ultimate parent of the Local Health Boards will disclose the Charitable Accounts of Local Health Boards in the Welsh Government Consolidated Accounts. Details of the transactions with the charity are included in the related parties' note.

2. Financial Duties Performance

The National Health Service Finance (Wales) Act 2014 came into effect from 1 April 2014. The Act amended the financial duties of Local Health Boards under section 175 of the National Health Service (Wales) Act 2006. From 1 April 2014 section 175 of the National Health Service (Wales) Act places two financial duties on Local Health Boards:

- A duty under section 175 (1) to secure that its expenditure does not exceed the aggregate of the funding allotted to it over a period of 3 financial years

A duty under section 175 (2A) to prepare a plan in accordance with planning directions issued by the Welsh Ministers, to secure compliance with the duty under section 175 (1) while improving the health of the people for whom it is reponsible, and the provision of health care to such people, and for that plan to be submitted to and approved by the Welsh Ministers.

The first assessment of performance against the 3 year statutory duty under section 175 (1) was at the end of 2016-17, being the first 3 year period of assessment.

Welsh Health Circular WHC/2016/054 "Statutory and Financial Duties of Local Health Boards and NHS Trusts" clarifies the statutory financial duties of NHS Wales bodies effective from 2016-17.

2.1 Revenue Resource Performance

	Annual financial performance				
	2019-20	2020-21	2021-22	Total	
	£000	£000	£000	£000	
Net operating costs for the year	1,066,986	1,234,585	1,278,862	3,580,433	
Less general ophthalmic services expenditure and other non-cash limited expenditure	(672)	93	(66)	(645)	
Less revenue consequences of bringing PFI schemes onto SoFP	(122)	(126)	(131)	(379)	
Total operating expenses	1,066,192	1,234,552	1,278,665	3,579,409	
Revenue Resource Allocation	1,067,075	1,234,640	1,278,837	3,580,552	
Under /(over) spend against Allocation	883	88	172	1,143	

Cwm Taf LHB has met its financial duty to break-even against its Revenue Resource Limit over the 3 years 2019-20 to 2021-22.

The health board did not receive strategic cash only support in 2021-22.

2.2 Capital Resource Performance

	2019-20 £000	2020-21 £000	2021-22 £000	Total £000
Gross capital expenditure	40,244	53,772	79,967	173,983
Add: Losses on disposal of donated assets	0	0	0	0
Less NBV of property, plant and equipment and intangible assets disposed	(5)	(80)	(717)	(802)
Less capital grants received	(49)	(1,264)	(13)	(1,326)
Less donations received	(1,862)	(197)	(83)	(2,142)
Charge against Capital Resource Allocation	38,328	52,231	79,154	169,713
Capital Resource Allocation	38,352	52,278	79,196	169,826
(Over) / Underspend against Capital Resource Allocation	24	47	42	113

Cwm Taf LHB has met its financial duty to break-even against its Capital Resource Limit over the 3 years 2019-20 to 2021-22.

2.3 Duty to prepare a 3 year integrated plan

Due to the pandemic, the process for the 2020-23 integrated plan was paused in spring 2020 temporary planning arrangement were implemented.

As a result the extant planning duty for 2021-22 remains the requirement to submit and have approved a 2019-22 integrated plan, as set out in the NHS Wales Planning Framework 2019-22.

The Health Board submitted a 2019-22 integrated plan in accordance with the planning framework.

The Minister for Health and Social Services extant approval

Status Date

26/03/2019

The LHB has therefore met its statutory duty to have an approved financial plan.

2.4. Creditor payment

The LHB is required to pay 95% of the number of non-NHS bills within 30 days of receipt of goods or a valid invoice (whichever is the later). The Health Board has achieved the following results:

	2021-22	2020-21
Total number of non-NHS bills paid	249,925	214,788
Total number of non-NHS bills paid within target	239,146	201,425
Percentage of non-NHS bills paid within target	95.7%	93.8%
The LHB has met the target.		

3. Analysis of gross operating costs

3.1 Expenditure on Primary Healthcare Services

	Cash limited £000	Non-cash limited £000	2021-22 Total £000	2020-21 £000
General Medical Services	86,136		86,136	82,559
Pharmaceutical Services	28,525	(6,331)	22,194	21,196
General Dental Services	27,011		27,011	25,470
General Ophthalmic Services	1,604	6,397	8,001	7,101
Other Primary Health Care expenditure	17,435		17,435	14,984
Prescribed drugs and appliances	91,002		91,002	92,263
Total	251,713	66	251,779	243,573

Included within Note 3.1 General Medical Services are staff costs of £7.202m (2020-21 £7.107m).

3.2 Expenditure on healthcare from other providers	2021-22	2021-22	2020-21	2020-21
	£000	£000	£000	£000
	CT activities	C	CT activities	
Goods and services from other NHS Wales Health Boards	77,989	557,398	74,359	517,518
Goods and services from other NHS Wales Trusts	26,305	261,125	23,392	242,851
Goods and services from Special Health Authorities	2,976	3,104	0	0
Goods and services from other non Welsh NHS bodies	335	179,578	153	159,575
Goods and services from WHSSC / EASC	148,438	0	155,190	0
Local Authorities	26,495	26,495	23,209	23,209
Voluntary organisations	4,975	6,878	3,920	8,243
NHS Funded Nursing Care	6,246	6,246	7,022	7,022
Continuing Care	49,163	49,163	46,093	46,093
Private providers	6,751	40,152	1,724	52,226
Specific projects funded by the Welsh Government	0	0	0	0
Other	35	35	354	353
Total	349,708	1,130,174	335,416	1,057,090

WHSSC do not hold any statutory responsibility for a resource limit and as such cannot receive funding directly from Welsh Government. Any funding from Welsh Government for WHSSC activities is received by Cwm Taf Morgannwg UHB. This funding is then passed to WHSSC, classified as expenditure between Cwm Taf Morgannwg and WHSSC. WHSSC Covid 19 related expenditure included within Private Providers of £3,389,000.

Included within CT activities figures above is the following Welsh Government funding relating to WHSSC activities.

£000

14,208

Goods and Services from WHSSC/EASC

Redundancy and other departure costs have been paid in accordance with the provisions of the NHS Voluntary Early Release Scheme (VERS). Where the LHB has agreed early retirements, the additional costs are met by the LHB and not by the NHS Pensions Scheme. III-health retirement costs are met by the NHS Pensions Scheme and are not included in the table.

All 7 special payments are severance payments, the highest payment was £101,977 the lowest payment was £20,000 and the median value was for £72,703.

All seven of the exit packages are in relation to CTM employees.

9.6 Fair Pay disclosures

9.6.1 Remuneration Relationship

Reporting bodies are required to disclose the relationship between the remuneration of the highest-paid director /employee in their organisation and the 25th percentile, median and 75th percentile remuneration of the organisation's workforce. The 2021-22 financial year is the first year disclosures in respect of the 25th percentile pay ratio and 75th percentile pay ratio are required.

	2021-22	2021-22	2021-22	2020-21	2020-21	2020-21
	£000 Chief	£000	£000	£000 Chief	£000	£000
Total pay and benefits	Executive	Employee	Ratio	Executive	Employee	Ratio
25th percentile pay ratio	208	23	9.1	203	23	8.7
Median pay	208	32	6.5	203	31	6.5
75th percentile pay ratio	208	42	5.0	203	41	5.0
Salary component of total pay and benef	fits					
25th percentile pay ratio	208	23	9.1	203	23	8.7
Median pay	208	32	6.5	203	31	6.5
75th percentile pay ratio	208	42	5.0	203	41	5.0
	Highest Paid			Highest Paid		
Total pay and benefits	Director	Employee	Ratio	Director	Employee	Ratio
25th percentile pay ratio	213	23	9.3	203	23	8.7
Median pay	213	32	6.7	203	31	6.5
75th percentile pay ratio	213	42	5.1	203	41	5.0
Salary component of total pay and benef	fits					
25th percentile pay ratio	213	23	9.3	203	23	8.7
Median pay	213	32	6.7	203	31	6.5
75th percentile pay ratio	213	42	5.1	203	41	5.0

In 2021-22, 12 (2020-21, 11) employees received remuneration in excess of the highest-paid director.

Remuneration for all staff ranged from £5k to £351k (2020-21, £5k to £365k).

The all staff range includes directors (including the highest paid director) and excludes pension benefits of all employees.

Financial year summary

There is an slight increase on the 25th percentile ratio for both the Chief Executive and Highest paid director. The increase is due to a change in the highest paid director. As the median ratio remains the same Cwm Taf Morgannwg UHB believes the median pay ratio for the relevant financial year is consistent with the pay, reward and progression policies for the Health Boards employees taken as a whole.

9.6.2 Percentage Changes	2020-21	2019-20

Average % Change from previous financial year in respect of employees takes as a whole		
Salary and allowances	1%	N/A
Performance pay and bonuses	1%	N/A

9.7 PENSION COSTS

Past and present employees are covered by the provisions of the two NHS Pension Schemes. Details of the benefits payable and rules of the Schemes can be found on the NHS Pensions website at <u>www.nhsbsa.nhs.uk/pensions</u>. Both are unfunded defined benefit schemes that cover NHS employers, GP practices and other bodies, allowed under the direction of the Secretary of State for Health and Social Care in England and Wales. They are not designed to be run in a way that would enable NHS bodies to identify their share of the underlying scheme assets and liabilities. Therefore, each scheme is accounted for as if it were a defined contribution scheme: the cost to the NHS body of participating in each scheme is taken as equal to the contributions payable to that scheme for the accounting period.

In order that the defined benefit obligations recognised in the financial statements do not differ materially from those that would be determined at the reporting date by a formal actuarial valuation, the FReM requires that "the period between formal valuations shall be four years, with approximate assessments in intervening years". An outline of these follows:

a) Accounting valuation

A valuation of scheme liability is carried out annually by the scheme actuary (currently the Government Actuary's Department) as at the end of the reporting period. This utilises an actuarial assessment for the previous accounting period in conjunction with updated membership and financial data for the current reporting period, and is accepted as providing suitably robust figures for financial reporting purposes. The valuation of the scheme liability as at 31 March 2022, is based on valuation data as 31 March 2021, updated to 31 March 2022 with summary global member and accounting data. In undertaking this actuarial assessment, the methodology prescribed in IAS 19, relevant FReM interpretations, and the discount rate prescribed by HM Treasury have also been used.

The latest assessment of the liabilities of the scheme is contained in the report of the scheme actuary, which forms part of the annual NHS Pension Scheme Accounts. These accounts can be viewed on the NHS Pensions website and are published annually. Copies can also be obtained from The Stationery Office.

b) Full actuarial (funding) valuation

The purpose of this valuation is to assess the level of liability in respect of the benefits due under the schemes (taking into account recent demographic experience), and to recommend contribution rates payable by employees and employers.

The latest actuarial valuation undertaken for the NHS Pension Scheme was completed as at 31 March 2016. The results of this valuation set the employer contribution rate payable from April 2019 to 20.6% of pensionable pay.

The 2016 funding valuation also tested the cost of the Scheme relative to the employer cost cap that was set following the 2012 valuation. There was initially a pause to the cost control element of the 2016 valuations, due to the uncertainty around member benefits caused by the discrimination ruling relating to the McCloud case.

HMT published valuation directions dated 7 October 2021 (see <u>Amending Directions 2021</u>) that set out the technical detail of how the costs of remedy are included in the 2016 valuation process. Following these directions, the scheme actuary has completed the cost control element of the 2016 valuation for the NHS Pension Scheme, which concludes no changes to benefits or member contributions are required. The 2016 valuation reports can be found on the NHS Pensions website at <u>https://www.nhsbsa.nhs.uk/nhs-pension-scheme-accounts-and-valuation-reports</u>.

c) National Employment Savings Trust (NEST)

NEST is a workplace pension scheme, which was set up by legislation and is treated as a trust-based scheme. The Trustee responsible for running the scheme is NEST Corporation. It's a non-departmental public body (NDPB) that operates at arm's length from government and is accountable to Parliament through the Department for Work and Pensions (DWP).

NEST Corporation has agreed a loan with the Department for Work and Pensions (DWP). This has paid for the scheme to be set up and will cover expected shortfalls in scheme costs during the earlier years while membership is growing.

NEST Corporation aims for the scheme to become self-financing while providing consistently low charges to members.

Using qualifying earnings to calculate contribuions, currently the legal minimum level of contributions is 8% of a jobholder's qualifying earnings, for employers whose legal duties have started. The employer must pay at least 3% of this.

The earnings band used to calculate minimum contributions under existing legislation is called qualifying earnings. Qualifying earnings are currently those between £6,240 and £50,000 for the 2021-2022 tax year (2020-2021 £6,240 and £50,000).

Restrictions on the annual contribution limits were removed on 1st April 2017.

10. Public Sector Payment Policy - Measure of Compliance

10.1 Prompt payment code - measure of compliance

The Welsh Government requires that Health Boards pay all their trade creditors in accordance with the CBI prompt payment code and Government Accounting rules. The Welsh Government has set as part of the Health Board financial targets a requirement to pay 95% of the number of non-NHS creditors within 30 days of delivery.

The land and buildings were revalued by the Valuation Office Agency with an effective date of 1st April 2017. The valuation has been prepared in accordance with the terms of the latest version of the Royal Institute of Chartered Surveyors' Valuation Standards. LHB s are required to apply the revaluation model set out in IAS 16 and value its capital assets to fair value. Fair value is defined by IAS 16 as the amount for which an asset could be exchanged between knowledgeable, willing parties in an arms length transaction. This has been undertaken on the assumption that the property is sold as part of the continuing enterprise in occupation.

11. Property, plant and equipment (continued)

Disclosures:

Disclosures: i) Donated Assets

Cwm Taf Morgannwg LHB has received the following donated assets during the year:

	£000
Bluebell room conversion POW Maternity	15
M Doddi project Health Pack	17
SMOTS system for Endoscopy Theatre	29
Macmillan VR Headset	8
Abbots Dietetics Bioscan Touch i8 IVF	15
Nova Blood Gas Analyser	<u>13</u>
Total	96

ii) Valuations

The LHBs land and Buildings were revalued by the Valuation Office Agency with an effective date of 1st April 2017. The valuation has been prepared in accordance with the terms of the latest version of the Royal Institute of Chartered Surveyors' Valuation Standards.

The LHB is required to apply the revaluation model set out in IAS 16 and value its capital assets to fair value. Fair value is defined by IAS 16 as the amount for which an asset could be exchanged between knowledgeable, willing parties in an arms length transaction. This has been undertaken on the assumption that the property is sold as part of the continuing enterprise in operation.

iii) Asset Lives

Depreciated as follows:

- Land is not depreciated.

- Buildings as determined by the Valuation Office Agency.

- Equipment 5-15 years.

iv) Compensation

There has/has not been no compensation received from third parties for assets impaired, lost or given up, that is included in the income statement.

£'000

(6758)

11,826

v) Write Downs

During 20-21 the following impairments arose:

	L 000
The impairments as a result of bringing assets into use:

The expected timing of cashflows are based on best available information; but they could change on the basis of individual case changes.

The Legal & Risk Service (part of the NHS Wales Shared Service Partnership) provide details of Clinical Negligence and personal Injury cases including estimated settlement amounts and the timing of the cashflow.

The provision for Permanent Injury Benefit is supplied by NHS Pensions Agency.

Other provisions include £75k for Continuing Healthcare restrospective claims.

The Health Board estimates that it will receive £63,848k from the Welsh Risk Pool in respect of losses and special payments cases (including Clinical Negligence, Redress and Personal Injury). In addition to the provisions shown above, contingent liabilities are given in Note 21.1 Contingent Liabilities.

Continuing Health Care costs	164	15
Other	0	0
Total value of disputed claims	271,654	221,122
Amounts (recoverable) in the event of claims being successful	(268,286)	(217,807)
Net contingent liability	3,368	3,315

As part of the reimbursement process for claims, the Health Board is required to submit an adequate Learning from Events Report (LfER) within 60 working days to the Welsh Risk Pool (WRP). Where the information requested has not been provided within six calendar months, the WRP Committee may strike out a claim and permanently defer reimbursement. At present the Health Board has a significant number of LfERs which are over 6 months overdue and these have been referred to the WRP Committee meeting scheduled for 20th July 2022. The total value of these claims is circa £15.8million and £2.1million has been paid out to date. The Health Board is continuing to work with the WRP to reduce the number of outstanding LFERs prior to the Committee meeting, in order to alleviate the risk of permanent deferral. At this stage the Health Board is unable to place a reliable estimate on the possible penalty charge that may be imposed at the WRP Committee meeting on 20July 2022. No provision has therefore been made in the 2021/22 Annual Accounts for any possible penalty charges.

Other litigation claims could arise in the future due to known incidents. The expenditure which may arise from such claims cannot be determined and no provision has been made for them.

Liability for Permanent Injury Benefit under the NHS Injury Benefit Scheme lies with the employer. Individual claims to the NHS Pensions Agency could arise due to known incidents.

Liabilities for continuing healthcare costs continue to reduce following periods of increasing volume of claims after the introduction of deadlines and cut off dates by Welsh Government commencing on the 31st July 2014. The contingenct liability reflects claims that have been received by the LHB at the 31st March 2022.

Cwm Taf LHB is responsible for post 1st April 2003 costs and the financial statements include the following amounts relating to those uncertain continuing healthcare costs:

Note 20 sets out the £0.07m provision made for probable continuing care costs relating to 18 claims received;

Note 21.1 sets out the £0.164m contingent liability for possible continuing care costs relating to 15 claim received.

21.2 Remote Contingent liabilities	2021-22 £000	2020-21 £000

Capital value of scheme included in Fixed Assets Note 11		£000
Staff Residences - Royal Glamorgan Hospital		1,446
Contract start date:		09/10/1998
Contract end date:		21/09/2028
Scheme Description		
The staff residences scheme covers the design, build, financing and operation of staff accommodati	on on the Royal Glamo	rgan
Hospital site. The Health Board entered into a project agreement with Charter Housing Association of	on the 9th October 1998	3.
		£000
Combined Heat and Power Plant-Prince Charles Hospital		1,233
Contract start date:		01/04/2004
Contract end date:		31/03/2029

The contract is for the installation, operation, maintenance and ownership of a Combined Heat and Power plant and the complete management and operation of a central boiler plant installation, light fittings and building management system on the Prince Charles Hospital site.

The contract includes performance guarantees for the supply of hot water and electricity.

The charging structure requires the Health Board to pay for heat (in the form of hot water) created from the electricity generated by the Combined Heat and Power plant being supplied free of charge to the Health Board.

25.5 The LHB has no Public Private Partnerships

26. Financial risk management

Financial reporting standard IFRS 7 requires disclosure of the role that financial instruments have had during the period in creating or changing the risks a body faces in undertaking its activities. The LHB is not exposed to the degree of financial risk faced by business entities. Also financial instruments play a much more limited role in creating or changing risk than would be typical of listed companies, to which these standards mainly apply. The LHB has limited powers to invest and financial assets and liabilities are generated by day-to-day operational activities rather than being held to change the risks facing the LHB in undertaking its activities.

Currency risk

The LHB is principally a domestic organisation with the great majority of transactions, assets and liabilities being in the UK and Sterling based. The LHB has no overseas operations. The LHB therefore has low exposure to currency rate fluctuations.

Interest rate risk

LHBs are not permitted to borrow. The LHB therefore has low exposure to interest rate fluctuations

Credit risk

Because the majority of the LHB's funding derives from funds voted by the Welsh Government the LHB has low exposure to credit risk.

Liquidity risk

The LHB is required to operate within cash limits set by the Welsh Government for the financial year and draws down funds from the Welsh Government as the requirement arises. The LHB is not, therefore, exposed to significant liquidity risks.

30. Related Party Transactions

Welsh Health Specialised Services and Emergency Ambulance Services

WHSSC and EASC are sub-committees of each of the 7 Local Health Boards in Wales. Therefore, any related transaction would form part of each LHB's statutory financial statements. Whilst the committees have executive teams these are not executive directors and they are employed by Cwm Taf Morgannwg LHB as the host organisation.

During 2021/2022, the Joint Committees adopted a risk sharing approach which is applied to all financial transactions. In accordance with the Standing Orders, the Joint Committees must agree a total budget to plan and secure the relevant services delegated to them. The Joint Committees must also agree the appropriate contribution of funding required from each LHB.

Each LHB will be required to make available to the Joint Committees the level of funds outlined in the annual plan.

The plan will include the risk sharing income received from each LHB during 2021/2022 as per Note 4, žexpenditure incurred by WHSSC and EASC with providers of tertiary and specialist services is as per Note 3.2 and analysed in the Segmental Analysis in Note 33.2 Running costs, staffing and admin expenditure incurred with other NHS Wales organisations has been extracted from Note 3.3 but does not encompass the total of all running costs, the majority of which are transactions with organisations outside NHS Wales or are staff costs

Zelindre and The Welsh Ambulance Service are included as providers only, as both are merely associate members of the Committees and do not have voting rights.

	Income (Note 4) £000's	Expenditure (Note 3.2) £000's	Running costs (Note 3.3)	Debtor (Note 15) £000's	Creditor (Note 18) £000's

31. Third Party assets

The LHB held £5,748.54 cash at bank and in hand at 31 March 2022 (31st March 2021, £8,862.32) which relates to monies held by the LHB on behalf of patients. Cash held in patient Investment Accounts amounted to £nil at 31st March 2022 (31st March 2021, £nil). This has been excluded from the Cash and Cash equivalents figure reported in the accounts.

32. Pooled budgets

Rhondda Cynon Taf, Bridgend and Merthyr Tydfil Integrated Community Equipment Service

The Health Board has entered into a pooled budget with

Rhondda Cynon Taf County Borough Council Merthyr Tydfil County Borough Council Bridgend County Borough Council

The partnership arrangement with Abertawe Bro Morgannwg University Local Health Board ended on 31st March 2019 due to the transfer of the responsibility for providing healthcare services for the people in the Bridgend County Borough Council (BCBC) area from Abertawe Bro Morgannwg UHB to Cwm Taf Morgannwg UHB from 1st April 2019.

Under the arrangement funds are pooled under section 33 of the NHS (Wales) Act 2006 for the provision of an Integrated Community Equipment Service. The service is to enable children and adults who require assistance to perform essential activities of daily living to maintain their health and autonomy and to live life as fully as possible. The equipment provided can include, but is not limited to

- Community home nursing equipment

- Equipment for daily living

- Physiotherapy living

- Static Seating

A memorandum note to the accounts provides details of the joint income and expenditure.

The pool is hosted by Rhondda Cynon Taf County Borough Council. The financial operation of the pool is governed by a pooled budget agreement between the above named organisations and the Health Board. The Health Board accounts for its share of contributions to the budget in expenditure. Contributions are based on each individual organisations forecast activities. Assets, liabilities, income and expenditure arising from the activities of the pooled budget, identified in accordance with the pooled budget agreement.

32. Pooled budgets(cont)

Cwm Taf Morgannwg Care Home Accommodation

The Health Board has entered into a pool fund arrangement with Rhondda Cynon Taf County Borough Council and Merthyr Tydfil County Borough Council.

The Agreement for the CWM TAF MORGANNWG CARE HOME ACCOMMODATION POOLED FUND is made under The Social Services and Well-being (Wales) Act 2014 (the 'Act') and the Partnership Arrangements (Wales) Regulations 2015 (the 'Regulations').

The Agreement provides for the establishment of the CWM TAF MORGANNWG CARE HOME ACCOMMODATION POOLED FUND which will undertake the following functions on behalf of the Parties.

The functions of a local authority under sections 35 and 36 of the Act, where it has been decided to meet the adult's needs by providing or arranging to provide accommodation in a care home;

The functions of a Local Health Board under section 3 of the National Health Service (Wales) Act 2006 in relation to an adult, in cases where:

The adult has a primary need for health care and it has been decided to meet the needs of the adult by arranging the provision of accommodation in a care home, or

The adult does not have a primary need for health care but the adult's needs can only be met by the local authority arranging for the provision of accommodation together with nursing care

A memorandum note to the accounts provides details of the joint income and expenditure.

The pool is hosted by Rhondda Cynon Taf County Borough Council. The financial operation of the pool is governed by a pooled budget agreement between the above named organisations and the Health Board. The Health Board accounts for its share of contributions to the budget in expenditure. Contributions are based on each individual organisations forecast activities. Assets, liabilities, income and expenditure arising from the activities of the pooled budget, identified in accordance with the pooled budget agreement.

32. Pooled budgets(cont)

Bridgend Integrated Community Services

The Health Board has entered into a pooled budget with:

Bridgend County Borough Council

Under the arrangement funds are pooled under section 33 of the NHS (Wales) Act 2006 for the provision of an Integrated Community Service. The approach of the Partners will be consistent with the principles in "Sustainable Social Services: A Framework for Action" which sets out the action needed to ensure care and support services respond to rising levels of demand and changing expectations, particularly for frail older people.

Partners deliver their stated commitment to benefit adults in the region:

Support for people to remain independent and keep well

More people cared for at home to maximise their recovery, with shorter stays in hospital if they are unwell

A change in the pathway away from institutional care to community care, available on a 7-day basis

Fewer people being asked to consider long term residential or nursing home care, particularly in a crisis

Earlier diagnosis of dementia and quicker access to specialist support for those who need it

More people living with the support of technology and appropriate support services

Provision of services that are more joined up around the needs of the individual with less duplication or hand-offs between health and social care agencies

A memorandum note to the accounts provides details of the joint income and expenditure.

The pool is hosted by Bridgend County Borough Council. The financial operation of the pool is governed by a pooled budget agreement between the above named organisations and the Health Board. The Health Board accounts for its share of contributions to the budget in expenditure. Assets, liabilities, income and expenditure arising from the activities of the pooled budget, identified in accordance with the pooled budget agreement.

Pooled budget memorandum account for the period 1 April 2021 – 31 March 2022

Funding	2021-22 £'000	2020-21 £'000
Bridgend County Borough Council	£2,133	£2,231
Cwm Taf Morgannwg University Local Health Board	£2,661	£2,455
Total Funding	£4,794	£4,686
Expenditure Provision of Community Support Service & reablement Net under/Over spend	£4,794 NIL	£4,686 NIL

ICF Funding of £707,000 has been received in respect of the pooled budget. This has been excluded from the figures above.

33. Operating segments

IFRS 8 requires bodies to report information about each of its operating segments.

The following information segments the results of Cwm Taf Morgannwg Local Health Board by:

- Healthcare activities

- Welsh Health Specialised Services Committee (WHSSC)

- Emergency Ambulance Services Joint Committee (EASC)

34. Other Information

34.1. 6.3% Staff Employer Pension Contributions - Notional Element

The value of notional transactions is based on estimated costs for the twelve month period 1 April 2021 to 31 March 2022. This has been calculated from actual Welsh Government expenditure for the 6.3% staff employer pension contributions between April 2021 and February 2022 alongside Health Board/Trust/SHA data for March 2022.

Transactions include notional expenditure in relation to the 6.3% paid to NHS BSA by Welsh Government and

34. Other Information (continued)

34.3. Changes to accounting standards not yet effective - IFRS 16 Impact

IFRS 16 Leases supersedes IAS 17 Leases and is effective in the public sector from 1 April 2022. IFRS 16 provides a single lessee accounting model and requires a lessee to recognise right-of-use assets and liabilities for leases with a term more than 12 months unless the underlying value is of low value. The FReM makes two public sector adaptions

- The definition of a contract is expanded to include intra UK government agreements that are not legally enforceable;
- The definition of a contract is expanded to included agreements that have nil consideration.

IFRS 16 gives a narrower definition of a lease that IAS 17 and IFRIC 4 by requiring that assets and liabilities will be recognised initially at the discounted value of minimum lease payments After initial recognition, right of use assets will be depreciated on a straight line basis and interest recognised on the liabilities. Except where modified for revaluation where material, the cost model will be applied to assets other than peppercorn leases which will be measured on a depreciated replacement cost basis. The right of use asset in a peppercorn lease is accounted for similarly to a donated asset.

As required by the FReM IFRS 16 will be implemented using the accumulated catch up method.

The right of use assets and leasing obligation have been calculated and indicated that the total discounted value of right of use assets and liabilities under IFRS 16 is lower than the value of minimum lease commitments under IAS 17. This is due to various lease costs included under IAS17 which are not transitioning under IFRS16 such as short term leases, low value leases, personal cars and the portions of managed service contracts that are not linked to an asset which will not be converted into a right of use asset.

The impact of implementation is an

- Increase in expenditure of £39k (this being the difference between the lease payments for leases transitioning over under IFRS16 and the depreciation and interest expense payable once they become right of use assets)
- increase in assets of £18,813k and increase in liabilities of £18,613k.

These figures are calculated before intercompany eliminations are made, these will/will not have a material impact on the figures.

LHB

1 Expenditure on Hospital and Community Health Services

2 Finance Costs

THE NATIONAL HEALTH SERVICE IN WALES ACCOUNTS DIRECTION GIVEN BY WELSH MINISTERS IN ACCORDANCE WITH SCHEDULE 9 SECTION 178 PARA 3(1) OF THE NATIONAL HEALTH SERVICE (WALES) ACT 2006 (C.42) AND WITH THE APPROVAL OF TREASURY

LOCAL HEALTH BOARDS

1. Welsh Ministers direct that an account shall be prepared for the financial year ended 31 March 2011 and subsequent financial years in respect of the Local Health Boards (LHB)1, in the form specified in paragraphs [2] to [7] below.

BASIS OF PREPARATION

2. The account of the LHB shall comply with:

(a) the accounting guidance of the Government Financial Reporting Manual (FReM), which is in force for the financial year in which the accounts are being prepared, and has been applied by the Welsh Government and detailed in the NHS Wales LHB Manual for Accounts;

(b) any other specific guidance or disclosures required by the Welsh Government.

FORM AND CONTENT

3. The account of the LHB for the year ended 31 March 2011 and subsequent years shall comprise a statement of comprehensive net expenditure, a statement of financial position, a statement of cash flows and a statement of changes in taxpayers' equity as long as these statements are required by the FReM and applied by the Welsh Assembly Government, including such notes as are necessary to ensure a proper understanding of the accounts.

4. For the financial year ended 31 March 2011 and subsequent years, the account of the LHB shall give a true and fair view of the state of affairs as at the end of the financial year and the operating costs, changes in taxpayers' equity and cash flows during the year.

5. The account shall be signed and dated by the Chief Executive of the LHB.

MISCELLANEOUS

6. The direction shall be reproduced as an appendix to the published accounts.

7. The notes to the accounts shall, inter alia, include details of the accounting policies adopted.

Signed by the authority of Welsh Ministers

Signed : Chris Hurst
