

<b>ACTION PLAN FOR IMPROVEMENT</b>	
<b>Reference</b> (Claim / Incident / Complaint)	<b>Improving Care Improving Lives (WG 2020) Nation Review of Adults with a Learning Disability in Inpatient care</b>
<b>Directorate</b>	<b>Mental Health</b>
<b>Lead Officer for Action Plan</b> (name & title)	<b>Mark Abraham</b>
<b>Date action plan commenced</b>	<b>1<sup>st</sup> April 2020</b>
<b>Synopsis of Concern</b>	<p>In February 2020 Welsh Government published its national review Inpatients with a Learning Disability (LD). The scope of the review included all Welsh adults with a diagnosis of a LD being cared for in inpatient beds provided or commissioned by NHS Wales; this included beds within NHS England and NHS Wales, and beds in the independent hospital sector. Link to report –</p> <p><a href="https://gov.wales/written-statement-review-adult-learning-disability-patient-provision-managed-or-commissioned-nhs">https://gov.wales/written-statement-review-adult-learning-disability-patient-provision-managed-or-commissioned-nhs</a></p> <p>This national care review found no immediate safety concerns and did not identify anyone who needed removing from their current placement. The review did however make a number of recommendations which were specific to providers and commissioners of learning disability services in Wales.</p> <p>CTMUHB are the commissioners of Inpatient LD services from both the NHS, through a service level agreement with SBUHB, and on an individual basis via the Independent Hospital sector.</p> <p>This action plan will therefore seek to address the recommendations to commissioners under the following 5 themes.</p>

Recommendation	Risk rating	Action needed	Progress & Evidence	Monitoring Arrangements (State HB group where progress is reported )	By who	Deadline date for completion (Use traffic light system to indicate status) & insert date of completion
Inpatient Learning Disabilities should be designed to meet the specific needs associated with, gender, gender and comorbid mental health conditions such as dementia and autism.		SBUHB Transformation of Specialists LD services	<p>HYW capital investment complete and accepting admissions.</p> <p>Bryn Y Afon Capital Investment ongoing due to complete May 2022.</p> <p>Delays to Meadow Court due to lack of Capital funds 2022/23.</p>	LD Performance and Commissioning Group	DoPCCMH	1 <sup>st</sup> June 2022 (Bryn Yr Afon Completed May 2022.) Further Capital investment subject to WG funding.
		MH & LD Commissioning Team to review all Independent Hospital placements annually.	100% compliant with annual reviews.	Continuing Health Care Panels	Heads of Nursing & Head of Commissioning	1 <sup>st</sup> April 2020
		CTMUHB engagement in National commissioning & procurement processes.	CTMUHB engagement in the NCCU Secure services review and WHSSC Strategic review for the provision of Specialist Inpatient LD services.	DoPCMH forum	Head of Commissioning	1 <sup>st</sup> April 2022
Inpatient services should be seen as last resort over community care. Where Inpatient care is necessary there should be clear		Regional development of Specialist Supported Living options for people with complex needs.	<p>3 schemes live in BCBC. 1 in development in RCT.</p> <p>Accommodation &amp; Support models seen as</p>	DoPCMH forum / RPB LD group	Head of Commissioning	1 <sup>st</sup> Dec 2022 (Completed with opening of Elam Rd RCT) Ongoing

Recommendation	Risk rating	Action needed	Progress & Evidence	Monitoring Arrangements (State HB group where progress is reported )	By who	Deadline date for completion (Use traffic light system to indicate status) & insert date of completion
transition pathways for discharge.			key priority for the region.  Additional regional demand and capacity work to be completed.			investment required from HCF)
		LD Intensive Support Teams expansion into CTMUHB	SBUHB Transformation report – Quarter 2 2022/23 implementation plan.	LD Performance and Commissioning group	DoPCCMH	1 <sup>st</sup> September 2022 (Delayed due to recruitment issues until early 2023)
All Inpatients should be allocated a Care Coordinator under the Mental Health Measure 2010.		SBUHB to allocate Care Coordinators under the MHM 2010.	March 2022 Performance Dashboard CTP Compliance 100%	LD Performance and Commissioning group	DoPCCMH	1 <sup>st</sup> April 2020
There are evidenced based approaches to Reducing Restrictive Practices (RRP).		Staff training required on RRP framework including Positive Behavioural Support.	CTM Commissioning Case Managers 100% Complaint with PBS awareness. SBUHB have an internal training program for PBS.
