

Welcome to Keir Hardie Community Dentist!

The Waiting Room

You might have to wait for the dentist

You can bring something to do

The nurse will call your name

The Dentist's Room

You can sit in the dental chair

You will need to open your mouth

The dentist will count your teeth

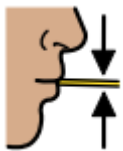

The X-ray Room

The dentist might take an x-ray of your teeth.
This is a type of special photo.

It might move around your head

You might have to bite on something

You should try and stay very still!
