

## Animals

### **Bird**

Thumb and index finger of one hand come together and apart by the side of your mouth

### **Butterfly**

Hands cross over in front of your chest, flutter them and move them slightly upwards

### **Cat**

Index and middle fingers of both hands start at the mouth and move up and back slightly towards cheeks

**Chicken**

Bend arms at the elbows and move elbows up and down

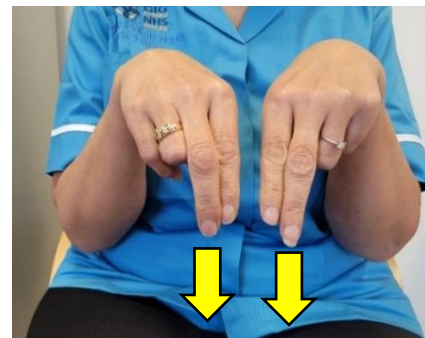

**Cow**

Place fists just above your temples and move upwards and outwards like the horns of a cow

**Dog**

Place hands as shown in front of your chest and slightly move them downwards

**Fish**

One hand wiggles through the air in front of your chest

### Horse

1. Point index and middle fingers of one hand across your chest
2. Put index and middle fingers of other hand either side of them.
3. Move both hands up and down twice

### Pig

Fist of one hand makes a small circle shape at tip of nose

### Rabbit

Point index and middle fingers up and place them at the top of your head, then waggle fingers slightly

### Sheep

1. Place hands with little fingers sticking out at the bottom of your cheeks.
2. Use them to trace the shape of curled horns against cheeks
