

Freedom of Information Request: Our Reference CTHB_232_17

You asked:

1. In the first 6 months of 2017, how many nurses, doctors and other medical staff have taken a leave of absence from work because of a stress related illness?

Our electronic staff record records staff groups Medical and Dental and Nursing and Midwifery.

Period 1-1-17 to 30-6-17	
Sickness Reason : S10 Anxiety/stress/depression/other psychiatric illnesses	
Staff Group	Headcount
Medical and Dental	8
Nursing and Midwifery Registered	224
Grand Total	232

Please note that the sickness reason does not differentiate between work-related stress or stress as a result of issues outside of the work place.

2. As a result, how much was spent on employing temporary staff to cover these absences?

We do not record this information.

3. In 2016 how many nurses, doctors and other medical staff have taken a leave of absence from work because of a stress related illness?

Period 1-1-16 to 31-12-16	
Sickness Reason : S10 Anxiety/stress/depression/other psychiatric illnesses	
Staff Group	Headcount
Medical and Dental	18
Nursing and Midwifery Registered	375
Grand Total	393

Please note that the sickness reason does not differentiate between work-related stress or stress as a result of issues outside of the work place.

4. As a result, how much was spent on employing temporary staff to cover these absences?

We do not record this information.
