

Freedom of Information Request: Our Reference CTHB_07_18

You asked:

1. How many people received hospital treatment for injuries sustained at trampoline parks in 2017?
2. What were the most common injuries treated?
3. How many people received hospital treatment for injuries sustained at trampoline parks in 2016?
4. What were the most common injuries treated?

Our response:

Please note, the location an injury occurred has only been captured on our Welsh Patient Administration System (WPAS) since April 2017, therefore the data prior to this date is unavailable.

I can confirm that during the time period 20/04/17 – 31/12/2017, 76 people received hospital treatment for injuries sustained at trampoline parks.

Please see list of injuries treated attached.
