

Freedom of Information Request: Our Reference CTHB_16_18

You asked:

Please can you give the maximum, minimum and average cost of undertaking a double hip replacement?

Also the same for the aftercare.

Our response:

A hip replacement falls under HRG (Health Resource Group): HN12F-Very Major Hip Procedures for Non-Trauma with CC Score 0-1. The cost of this procedure is £7,257.33. If we do a double hip replacement, then they would be performed at separate times but the total cost would be double at £14,514.66.

The cost identified above is inclusive of any aftercare, and it is not possible to split this out.
