

Freedom of Information Request: Our Reference CTHB_196_18

You asked:

Could you please supply the following information for each of the last three years broken down by each year.

- 1. The number of reported incidents and infestations of pests and insects at hospitals/clinics/treatment centres and any other premises in your health board area where patients are treated or seen. Can you break these down by the nature of incident/infestation in terms of the pest/insect involved (EG cockroach infestation, rodent infestations, ants or fleas etc).**

Please see attached.

- 2. The number of reported leaking or blocked sewer pipes at hospitals/clinics/treatment centres and any other premises in your health board area where patients are treated or seen.**

I can confirm that during the last three years there have been 347 reported leaking pipes across all Health Board properties, as recorded on our maintenance system.

- 3. The number of instances of roof leaks at hospitals/clinics/treatment centres and any other premises in your health board area where patients are treated or seen.**

I can confirm that during the last three years there have been 104 reported leaking roof repairs across all Health Board properties, as recorded on our maintenance system.

- 4. The cost of current and projected future repair works up until the end of this financial year (2018/19) at hospitals/clinics/treatment centres and any other premises in your health board area where patients are treated or seen.**

This is not information that we are able to provide. Current costs for repair works are not held with in a central system and projected future spend is unknown.
