

Freedom of Information Request: Our Reference CTHB_476_18

You asked:

- 1. How much funding has been spent by the Health Board on commercial providers of weight management services (for children and adults combined), in each of the spending years 2015/16, 2016/17 and 2017/18? Please provide a breakdown of spend per year allocated, where possible, to each level of weight management service (as defined below). We have provided the below table to illustrate how you may wish to provide this information:**

Please see information provided in the table below:

	Level 1	Level 2	Level 3	Level 4
2015/16	0	0	0	0
2016/17	0	0	0	0
2017/18	0	£18,148.50	0	0

- 2. Please name all commercial providers commissioned by the Local Health Board to provide Level 2 weight management services (as defined below) over the past three years (2015/16 to 2017/18). Please specify if these providers are providing weight management services for children, adults or both.**

Slimming World – adults, 2017/18

Definition of weight management service levels

The All Wales Obesity Pathway defines levels of weight management services in Wales as follows:

- 1. Level 1** - Community-based prevention - ensure opportunities are available for people to achieve and help maintain a healthy body weight
- 2. Level 2** - Early intervention services for people who wish to lose weight and have been identified at an increased risk by a doctor.
- 3. Level 3** - Specialist weight management services for people who are obese and have tried several methods of losing weight without success.
- 4. Level 4** - Bariatric surgery - specialist medical and surgical services for those people who have not managed to lose weight through conventional methods.
