

Freedom of Information Request: Our Reference CTHB_240_19

You asked:

Request some specific details of fire incidents in patients' homes in your LHB region.

1. How many fires involving oxygen equipment in patients homes have been reported in the period set out in the table/
2. Of those incidents, how many have resulted in fatalities?

Year	Incidents Involving Oxygen Equipment and Fire	Incidents Involving Oxygen Equipment, a Fire and a Fatality
2017		
2016		
2015		
2014		
2013		

Our response:

In relation to fires involving oxygen equipment in patient's homes, we would only be made aware of this if the South Wales Fire and Rescue Service (SWFRS) informed us. We do link in with SWFRS to provide information to where our patients who are on oxygen are located within the community. However, we are not aware of any incidents involving Cwm Taf Morgannwg University Health Board patients.
