

## **Freedom of Information Request: Our Reference CTHB\_218\_19**

### **You asked:**

How many people under the age of 18 were referred for help with a gambling addiction in your jurisdiction between June 2014 and June 2019?

If it is not possible to provide the information requested due to the information exceeding the cost of compliance limits identified in Section 12, please provide advice and assistance, under the Section 16 obligations of the Act, as to how I can refine my request.

If you can identify any ways that my request could be refined I would be grateful for any further advice and assistance.

### **Our response:**

I can confirm that the Health Board does not centrally record this detailed information. The information you require would be recorded within an individual patient's health record as part of their ongoing care. To provide you with this information, would require a manual trawl and significantly exceed the 18 hours time and £450 cost limit set out within Section 12 of the Freedom of Information Act.

However, in order to fulfil our obligation under Section 16 of the Act to provide advice and assistance we have attached a list of clinical conditions that we do record. However, we cannot identify any relation to 'gambling or addiction' for under 18s.

## CC Description

-

Low Mood

Anxiety

Suicidal ideation

Other

Behaviour

ADHD

Overdose

Self Harm

ND Service- ASD

Depression

ND Service- ADHD

Anorexia Nervosa
