

## **Freedom of Information Request: Our Reference CTHB\_145\_19**

### **You asked:**

Under the freedom of information please could you tell me how many babies or persons have been harmed or died from the effects of rapid infusions in Total Parental Nutrition (TPN) in the last 7 years

### **Our response:**

The information you require is recorded on our DATIX incident reporting system. However, the specific level of detail you require cannot be easily extracted due to the way in which it is recorded and the categories available. To provide you with this information, would require a manual trawl and would significantly exceed the 18 hours' time and £450 cost limit set out within Section 12 of the Freedom of Information Act. Therefore, we are unable to provide.

Further information relating to serious incidents is available in our Board papers under - Concerns (Complaints, Claims and Patient Safety Incidents) – Update On High-Risk Events. Please see link to board papers provided below:
