This information is not captured. These requests are handled in an informal way by clinical staff on the ward, when made and not collated.

- 3) How many of the requests for exceptions under 2) were fully or partially granted (please give a breakdown of how many were fully as opposed to partially granted)?**

Please see response to question 2. However, we can confirm that all ad hoc requests were facilitated such that no escalations for mediation or further discussions were required. There were no concerns, formal or informal relating to requests not being sympathetically considered and supported.
