

Freedom of Information Request: Our Reference CTMUHB_533_21

You asked:

I am interested in finding the most recent available data for the number of cancers (by cancer type) within Wales at the different health boards which were diagnosed by emergency presentation as opposed to being diagnosed through screening and GP appointments.

The equivalent data for England has been released by the NHS and I am interested to compare how Wales is doing in comparison.

Our response:

Please see information for Cwm Taf Morgannwg University Health Board provided below. The information has been extracted from Qlik.

For the date period between December 2020 and November 2021, we had 168 malignant cancers come through an emergency presentation.

The breakdown of the malignant cancer sites are provided in the table below;

Tumour site	Number of malignant cancers
Brain	7
Breast	2
Gynaecological	5
Haematology	6
Head and neck	1
Lower gastrointestinal	38
Lung	17
Other	19
Sarcoma	1
Skin	1
Upper Gastrointestinal	58
Urology	13
Total	168
