The Health Board does not hold the data in a format that would enable us to fully respond to your request to the level of detail required. As this is not information that the Health Board routinely compiles, we would have to carry out a specific exercise to retrieve, collate and validate this data. To provide you with this information, would require a manual trawl and significantly exceed the 18 hours time and £450 cost limit set out within Section 12 of the Freedom of Information Act.
