

Freedom of Information Request: Our Reference CTMUHB_107_21

You asked:

Q1. In the past 6 months [latest 6 months available] how many patients have received the following treatments [for any disease]:

Our Medicines Management system does not capture patient level detail. Therefore, we are unable to provide patient numbers, only the numbers of medicines issued. Due to the implementation of a new pharmacy computer system we are currently only able to provide data covering 1 July 2020 and 22 February 2021.

We can confirm that we have had no issues of the products listed below between the aforementioned dates.

- | | |
|---|-----|
| • Berinert (Human C1-esterase inhibitor) | - 0 |
| • Cinryze (Human C1-esterase inhibitor) | - 0 |
| • Takhzyro (Lanadelumab) | - 0 |
| • Ruconest (Recombinant human C1-esterase inhibitor) | - 0 |
| • Firazyr (Icatibant injection) | - 0 |

Q2. In the past 6 months [latest 6 months available] how many patients have received the following immunoglobulin treatments [for any disease]:

As advised in our response to question one, we are unable to provide patient numbers, only numbers of issue. The data provided below covers 1 July 2020 and 22 February 2021, due to the implementation of a new pharmacy computer system.

- | | |
|--------------------|-------|
| • Cuvitru | - 0 |
| • Gammanorm | - 0 |
| • Gamunex | - 257 |
| • Hizentra | - 0 |
| • Hyqvia | - 8 |
| • Kiovig | - 0 |
| • Octagam | - 0 |
| • Privigen | - 87 |
| • Subgam | - 0 |

Q3. In the past 6 months, how many patients attended A&E for Hereditary Angioedema (ICD10 code: D84.1) or Angioedema (ICD10 code: T78.3)?

We can confirm that no patients have attended A&E in the past 6 months for Hereditary Angioedema or Angioedema.

Of these patients, how many were treated with the following products:

- **Berinert (Human C1-esterase inhibitor)**
- **Cinryze (Human C1-esterase inhibitor)**
- **Ruconest (Recombinant human C1-esterase inhibitor)**
- **Firazyr (Icatibant injection)**
