

Freedom of Information Request: Our Reference CTMUHB_486_22

You asked:

I'd like to request data held regarding the prevalence of Fibromyalgia in both the adult (18+) and child (>18) population.

I'd like the data to be split by;

1. Age at time of diagnosis/access to reporting service
2. Location/borough within Wales
3. Gender (biological/any other patient reported gender)

Our response:

The Health Board do not monitor the diagnosis of patients' conditions. Therefore, we are unable to provide this information.

The information you require would be recorded within an individual patient's health record as part of their ongoing care. To provide you with this information, would require a manual trawl and significantly exceed the 18 hours time and £450 cost limit set out within Section 12 of the Freedom of Information Act.
