

Freedom of Information Request: Our Reference CTMUHB_490_22

You asked:

We would like some stats from you guys to show the impact from the Nurse strikes that took place last Thursday (**15th of December**). To give you an idea of what we are looking for Northern Ireland and England have provided stats on:

1. the number of staff that didn't turn up to work

558.

2. the number of operations/appointments that were cancelled as a result of the nurse strikes.

We are unable to specify the number of cancellations that were as a result of the industrial action. There is no specific code to enable us to identify this data.
