

Freedom of Information Request: Our Reference CTMUHB_44_22

You asked:

Can you please complete the fields below with what you currently hold on your Trust's Maternity and Radiology (RIS) systems?

Please enter 'No System Installed' or 'No department' under supplier name if your trust does not use the system or have the department:

System definitions:

Maternity – It is the specialist maternity system in use for maternity care.

Radiology Information System (RIS) – It is the core system for the electronic management of imaging departments. Often used in conjunction with PACS and VNAs, major functions of the RIS can include patient scheduling, resource management, examination performance tracking, reporting, results distribution, and procedure billing.
