You asked:

I am trying to understand the level of clinical trials activity that is taking place in the UK. Specifically can you tell me how many commercial clinical trials have been taking place in this health board during 2021?

This could be completed trials, or trials that are ongoing. When I say "commercial trials", I mean trials that are funded or sponsored by a commercial company such as a pharmaceutical company.

Our response:

7 commercial studies open to recruitment
1 commercial study in participant follow-up
