Digital Health and Care Wales (DHCW) hold the contract and manage this system for Health Boards in Wales. If you require further information please contact DHCW directly via the following link [Freedom of information - Digital Health and Care Wales \(nhs.wales\)](#)

System definitions:

Bed Management – Real-time bed states are viewable and accessible, enabling more efficient management of bed occupancy and patient movements.

Diagnostic Reporting - Test results which are electronically transmitted to the clinician who ordered them, with receipt acknowledgement.

Discharge Letters - The ability to electronically generate and send detailed discharge letters to GPs and other relevant HCPs, when a patient is discharged from hospital-based services.

Integration Platform - Software that supports the integration and interoperability of various clinical and management IT systems and services.
