

Freedom of Information Request: Our Reference CTMUHB_181_22

You asked:

Of the 285,141 names removed from all waiting lists (response CTMUHB_154_22) how many were removed because they had been referred to treatment?

Our response:

Looking at the outpatient number provided on FOI 154_22 = 194453. Outpatients being the type that would be referred for treatment.

We can confirm those that became an Inpatient/Day Case (removed because they had been referred to treatment) = 8523.
