

## **Freedom of Information Request: Our Reference CTMUHB\_561\_23**

### **You asked:**

I am writing to you under the Freedom of Information Act 2000 to request the following information from your organisation. Please may you provide me with:

1. Do(es) your hospital(s) have a software system capable of patient radiation dose recording and management in radiology? (Note: this could be a stand along product or be part of a PACS or other radiology platform solution)
2. If so, is it a commercially available system or a system free of cost to use?

### **Our response:**

The Princess of Wales Hospital uses Qualem as part of Fuji PACS.

Our Royal Glamorgan and Prince Charles Hospitals use RadIS. This is a product developed by [Digital Health Care Wales](#) for NHS Wales and is our Radiology Information System.
