Vaccine Status	2021	2022	2023
0	252	125	140
1	1699	1844	1754

With regards to all the information provided, please **note** the following:

- Date period covered = 01/01/2019 – 30/11/2023
- Where data is reliant on clinical coding, this traditionally has a completion timeline of three months in arrears – therefore the 2023 data will be incomplete.
- Same patient may have been admitted more than once

- Patient may belong to another University Health Board area
- CTM Princess of Wales (POW) hospital only – POW joined CTM 01/04/2019
- ICD10 coding could have changed during the time period, correct current chapter used for Cardiac Related issues
