Our response:

In accordance with the Freedom of Information Act 2000, this letter acts as a Refusal Notice under section 17 of the Act.

The Health Board does not centrally hold the data requested or in a format that would enable us to respond to your request to the level of detail required. As this is not information that the Health Board routinely compiles, we would have to carry out a specific exercise to collate this data.

We have reviewed your request and estimate, to provide you with this information, we would have to manually trawl and check individual specs/functionality etc. and merge service data for each device. This would significantly exceed the 18 hours time and £450 cost limit set out within Section 12 of the Freedom of Information Act and add extra pressure on our already strained services. We are therefore unable to provide.
