

Freedom of Information Request: Our Reference CTMUHB_512_23

You asked:

Please can you confirm how much funding the health board has allocated to general practice in 2023/24 specifically to cope with winter pressures (i.e. above usual GP funding)? I am looking for money that has been provided locally in the absence of national GP winter funding.

We have heard from GPs in many areas across the UK that nothing has been given to general practice this winter, so we want to verify this with each health board.

Our response:

We confirm that GPs practices have not received any additional funding for winter pressures.
