Freedom of Information Request: Our Reference CTMUHB_435_24

Clarification provided:

I am primarily interested in:

Revascularisation, (bypass surgery / angioplasty).

&

Invasive diagnostic procedures, (angiogram), preparatory for the above.

You asked:

I have recently been attempting to search out surgical outcome statistics in respect of Cardiology / Cardiothoracic Surgeons at the Princess of Wales Hospital Bridgend. I have been surprised to find that this information doesn't appear to be obtainable online any longer.

I was even more surprised to find that the only 2 Welsh hospitals featured on the *Society for Cardiothoracic Surgery in Great Britain and Ireland's* website were UHW & Morriston.

I would be grateful to be provided with the following information for the most recent 12 month data collation period:

Surgical Outcome Statistics for Cardiology / Cardiothoracic Surgeons who form part of the team at POWH.

This information is requested under the Freedom of Information Act 2000.

Our response:

We can confirm that no Cardiology Consultants in the Princess of Wales Hospital (POW) perform cardiac surgery. There are no Cardiac Surgeons in POW.

For Cwm Taf Morgannwg patients, all cardiac surgery is undertaken in Cardiff or Swansea tertiary centres (UHW and Morriston).
