Freedom of Information Request: Our Reference CTMUHB_131_24

You asked:

I would like to submit a request for a disclosure of information relating to your NHS trust's Information Technology (IT) Spend, and your current HIMSS EMRAM and INFRAM scores.

1. Can you please provide your trust's IT spend for the following financial years:

- **FY 2021-2022**
- **FY 2022-2023**

- FY 2021-2022 - £12.462m
- FY 2022-2023 - £14.560m

2. Which HIMSS EMRAM score have your Trust currently achieved (0-7):

Our assessment in 2022 put us at level 0 – we have not done a reassessment since this time.

3. Which HIMSS INFRAM score have your Trust currently achieved (0-7):

We have not done this assessment.

4. If your Trust are working towards achieving a new HIMSS EMRAM or INFRAM level, what level is this, and when will it be achieved:

We have not set a target yet and are therefore, unable to confirm.

Definitions:

Electronic Medical Record Adoption Model (EMRAM) – is an eight-stage model, scored from stages zero (least mature) to seven (most mature). At each stage, organisations need to demonstrate a progressive and eventual removal of paper, higher pervasiveness of use and compliance statistics, and an increasing reliance on automation and clinical decision support.

Infrastructure Adoption Model (INFRAM) – The eight-stage INFRAM measures the maturity of a healthcare facility's IT infrastructure across five areas: mobility, security, collaboration, transport and data centre.
