

Freedom of Information Request: Our Reference CTMUHB_28_24

You asked:

I would be very grateful if you could please provide information on the following:

1. How many diagnostic ultrasound systems are used within the Health Board?

- I. Name of the Manufacturer and Model of these systems?
- II. Which hospital are these based within and which department uses each of these systems?
- III. Who is the responsible person for each ultrasound system?
- IV. When were these systems purchased?
- V. When are these systems due for renewal / replacement?

Our response:

Answer to questions (I,II,IV,V) – see table below

	Suggested replacement schedule							
Location, Manufacturer, Model, Install date	1-2 Years	2-3 Years	3-4 Years	4-5 Years	Not Due	Overdue	Review Life Cycle (Due within Year)	Grand Total

III Who is the responsible person for each ultrasound system?

The Health Board is withholding this information. This decision has been made as it is not within the expectations of the individual that their personal data would be put into the public domain. This information is classed as personal data of third parties and is therefore being withheld in accordance with section 40 (2) of the Freedom of Information Act 2000 (the Act) by virtue of section 40 (3) (a) (i) of the Act which permits a public authority to withhold personal data other than the requester's where the disclosure would breach a Data Protection Principle.

The Data Protection Act 2018 (DPA) / General Data Protection Regulation (GDPR) defines personal data as data which relates to a living individual who can be identified solely from that data or from that data and other information which is in the possession of the data controller.
