

Freedom of Information Request: Our Reference CTMUHB_43_24

You asked:

Please provide a list of GP practices within the Rhondda area that have shared care arrangements in place for supply of ADHD medication.

Our response:

For Adult Mental Health Services, there is currently no shared care arrangements in place for supply of ADHD medication. This is currently under review with our colleagues in Primary Care and need to be approved by the LMC prior to new agreements being made.

In terms of Children and Young people, there are no GP practices within the Rhondda area that have shared care arrangements in place for supply of ADHD medication.
