Freedom of Information Request: Our Reference CTMUHB_367_24

You asked:

Under the Freedom of Information Act, I would like to request the following information:

1. How many Older Adult Mental Health Inpatient Wards do you operate?

We have 5 Older Adult Mental Health Inpatient Wards.

2. How many beds are there on each Older Adult Mental Health Inpatient ward and in total?

Total Older Adult Mental Health Inpatient Beds - 68

Ward One	15
Ward Two	10
Ward Three	15
Ward Four	12
Ward Five	16

3. What are the clinical cohorts for each ward: Functional Mental Health conditions? Organic Conditions (dementia)? Or Mixed Functional/Dementia Wards? Or other configuration? And if so, what? (ie are they single clinical cohorts, mixed cohorts or other, if other what configuration?).

Ward One	Organic
Ward Two	Functional
Ward Three	Organic
Ward Four	Mixed
Ward Five	Mixed

4. If a functionally ill older adult needs admission, do they go to an older age mental health specific ward or to another configuration, and if so, what?

A functionally ill older adult will be admitted to a functional ward depending on functional bed availability. Other options would be looked at if there were no vacant functional beds available.

However, we have admitted to adult acute wards if needed, when there has been no mental health bed availability.
