Freedom of Information Request: Our Reference CTMUHB_167_24

You asked:

I am currently studying in Cardiff University and looking at sustainable energy with the feasibility of using sustainable energy to power the hospital.

I'm just wondering if you happen to have the hospital layout drawings or roof drawings/layouts?

I'm looking at the feasibility of installing solar panels on the hospital roof but need to know the roof space etc to determine how many panels can be installed, optimal orientation, initial investment required, return of investment etc.

If you could let me know or point me in the right direction, I would be extremely grateful.

Our response:

Please find below a North oriented scaled plan of Royal Glamorgan Hospital with added dimensions for roof areas.
