Freedom of Information Request: Our Reference CTMUHB_173_24

You asked:

1. Has your Health Board commissioned services for diagnosis and management of people with FASD (Fetal Alcohol Spectrum Disorder)
 - a) For children
 - b) For young people
 - c) For adults
2. If yes, please say who has been commissioned to do this and what the pathway is, and provide any relevant documents.

Our response:

Our health board has not commissioned services for diagnosis and management of people with FASD. However, the Neurodevelopmental Service does accept referrals for assessment for possible FASD for children/young people, when there is evidence of pre-natal alcohol intake and neurodevelopmental type difficulties evident.
