Freedom of Information Request: Our Reference CTMUHB_303_24

You asked:

Statistics of ADHD assessments in Pontypridd.

1. How many adults were assessed for ADHD during 2023?
2. How long is the current wait time between diagnosis of ADHD and titration onto medication?

Our response:

Our Adult ADHD services are organised into regions so our response is in relation to ADHD assessments for the Taf Ely area, which would include Pontypridd.

1. How many adults were assessed for ADHD during 2023?

Due to lack of clinical capacity, there were no assessments undertaken in Taf Ely during 2023.

2. How long is the current wait time between diagnosis of ADHD and titration onto medication?

We can confirm that the Health Board does not centrally record this information. The information you require would be recorded within an individual patient's health record as part of their ongoing care. To provide you with this information, would require a manual trawl and significantly exceed the 18 hours time and £450 cost limit set out within Section 12 of the Freedom of Information Act.
