Freedom of Information Request: Our Reference CTMUHB_508_24

You asked:

How many patients of 'no fixed abode' were recorded using A&E services in your area in 2023, 2022 and 2021?

Our response:

Please see the information provided in the table below. Noting the following:

- A patient has only been counted once per year.
- The same patient can appear in the figures for more than one year.
- The patients were identified by searching for any patient with any of the following at the time of attendance:
 - An address that contained the words 'Fixed Abode' or 'NFA' or N.F.A
 - A Presenting complaint that contained the words 'Fixed Abode' or N.F.A
 - A Triage comments contained the words 'Fixed Abode' or N.F.A.
- Presenting complaint and triage comments are free text, so we could not search for 'NFA' as this combination of letters can be present in many words.

Calendar Year	Number of Patients
2021	92
2022	108
2023	125
