Freedom of Information Request: Our Reference CTMUHB_478_24

You asked:

Under the Freedom of Information Act, I would like to request the following information:

1. How many children are on the waiting list for an ADHD diagnosis?

There are currently 1487 children/young people awaiting an assessment/diagnosis of ADHD or ASD/ADHD.

2. How many adults are on the waiting list for an ADHD diagnosis?

There are currently 2354 adults on the waiting list for a diagnosis.

3. How many children are receiving prescribed medication for ADHD?

We can confirm that the Health Board does not centrally record this information. As such, we would not be able to provide a full Health Board wide picture. The information you require would be recorded within an individual patient's health record as part of their ongoing care. To provide you with this information, would require a manual trawl and significantly exceed the 18 hours time and £450 cost limit set out within Section 12 of the Freedom of Information Act.

However, to assist you with your request we can confirm the number of prescriptions via Hospital dispensary for period September 2023 to August 24 = 412 patients.

4. How many adults are receiving prescribed medication for ADHD?

Please see response to question 3 (Section 12 applied).

However, to assist you with your request we can confirm the number of prescriptions via Hospital dispensary for period September 2023 to August 24 = 100 patients.
