## Freedom of Information Request: Our Reference CTMUHB\_257\_25

### You asked:

**I am writing to you under the Freedom of Information Act 2000 to request access to specific data regarding unemployment and mental health within your health board. I kindly request the following information for the years 2023, 2024 and 2025 (January - end of May 2025).**

**If you do not collect or cannot provide data for one of the categories below, please provide data for the categories that you do or can provide data for.**

- 1. The number of individuals referred to NHS mental health services broken down by month. Of those identified please specify:**
  - a. Age category**
  - b. Employment status**
  - c. Those not in Education, Employment or Training**
  - d. Source of referral (e.g. GP, job centre, self-referral)**

Please see the information that we are able to provide in the table below. Noting the following:

- Employment and education status cannot be reported as the Health Board does not centrally record this information. The information you require may be recorded within an individual patient's health record as part of their ongoing care. To provide you with this information, would require a manual trawl and exceed the 18 hours time and £450 cost limit set out within Section 12 of the Freedom of Information Act
- Where the figures are less than 5, this has been denoted by \*\*. The exact figures have been withheld due to the low numbers involved.

Where numbers are low we have considered that there is the potential for the individuals to be identified from the information provided, when considered with other information that may also be in the public domain. Also, responses under the Freedom of Information Act are made available to the public at large. The data is classed as personal data as defined under the General Data Protection Regulation (GDPR) and Data Protection Act 2018 and its disclosure would be contrary to the data protection principles and constitute as unfair and unlawful processing in regard to Articles 5, 6, and 9 of GDPR. We are therefore withholding this detail under Section 40(2) of the Freedom of Information Act 2000. This exemption is absolute and therefore there is no requirement to apply the public interest test.

## 2. The number of crisis admissions or interventions related to unemployment or job loss

The Health Board does not centrally record this information. The information you require would be recorded within an individual patient's health record as part of their ongoing care. To provide you with this information, would require a manual

trawl and significantly exceed the 18 hours time and £450 cost limit set out within Section 12 of the Freedom of Information Act.

### **3. The number of hospital admissions or A&E presentations for self-harm or attempted suicide**

The Health Board can only provide a total number of admissions for patients with a diagnosis code of self-harm. We do not code attempted suicide, only the injuries sustained are coded, plus the general self-harm code.

Total Admissions = 1652

The Health Board can only provide a total number of A&E attendances for patients with self-harm or suicide descriptions in the presenting complaint or the triage notes, this is a free text search and we therefore cannot guarantee it is 100% accurate.

Total Attendances = 3732

#### **Of those identified please specify:**

##### **a. Employment status**

##### **b. Those not in Education, Employment or Training (NEET)**

Employment and education status is not centrally record. The information you require may be recorded within an individual patient's health record as part of their ongoing care. To provide you with this information, would require a manual trawl and exceed the 18 hours time and £450 cost limit set out within Section 12 of the Freedom of Information Act.

### **4. Any internal reports, studies, or audits since 2022 examining the mental health impacts of unemployment or economic hardship within the Cwm Taf Morgannwg Health Board area.**

There have been no internal reports or studies completed in relation to the mental health impacts of unemployment or economic hardship within the Cwm Taf Morgannwg University Health Board area.
