Freedom of Information Request: Our Reference CTMUHB_518_25

You asked:

I am writing under the Freedom of Information Act to request the following information:

Please note, data provided by Census month end dates.

1. How many people are currently on the waiting list for gynaecological services relating to endometriosis.

As at 31/10/2025 the current waiting list for gynaecological services relating to endometriosis was 271.

2. How many of these people are on the waiting list for a first appointment.

As at 31/10/2025 the current waiting list for a first appointment was 196

3. How many people have been on the waiting list between January 1st 2022 and October 29th 2025.

Between January 1st 2022 and October 31st 2025, 1003 people have been on the waiting list.

Please note:

- We can only calculate the number at the month end census date.
- This may not be an accurate representation of the number of patients that have been added to the waiting list.
- A patient could be added to the waiting list on the 1st of the month treated or removed prior to census month end date.
- These patients will not be included in the calculation of the number of patients that have been added to the list, this would have an impact on the result.

4. What is the current target waiting period for treatment relating to endometriosis.

The Current target wait is 26 weeks.

5. How many people between January 1st 2022 and October 29th 2025 have waited longer than this target period.

Between January 1st 2022 and October 31st 2025, 647 have waited longer than the target wait.

Please note:

- We can only calculate the number at the month end census date.
- This may not be an accurate representation of the number of patients that waited longer than 26 weeks.
- A patient can be treated or removed prior to census month end date.
- These patients will not be included in the calculation for the number of patients that waited longer than 26 weeks, this would have an impact on the result.

6.How long was the average wait for treatment in relating to endometriosis between January 1st 2022 and October 29th 2025.

Between January 1st 2022 and October 31st 2025, the average wait was 30 weeks.

Please note:

- We can only calculate the average weeks wait at the month end census date.
- This may not be an accurate representation of the average weeks wait, as patients could be added to the waiting list on the 1st of the month treated or removed prior to census month end date.
- These waits will not be included in the calculation for the average wait, which would have an impact on the results.

7.What is the longest waiting period currently on the list.

As at 31/10/2025 the longest wait was 101 weeks.

8.What is the longest waiting period currently on the list for a first appointment.

As at 31/10/2025 the longest wait for a 1st appointment was 100 weeks.
