Freedom of Information Request: Our Reference CTMUHB_498_25

You asked:

1. How many people under the age of 18 have been prescribed mounjaro, ozempic, wegovy, or other weight-loss jabs in your health board area?
2. What age is the youngest person to be prescribed proscribed mounjaro, ozempic, wegovy, or other weight-loss jabs in your health board area?

Our response:

Our Clinicians within Paediatrics and our Weight Management Service (adults) have confirmed, they have not prescribed weight loss jabs to patients under the age of 18.

Patient level details (age) are not captured within our Medicines Management system.

The information you require would be recorded within an individual patient's health record as part of their ongoing care. To provide you with this information, would require a manual trawl and significantly exceed the 18 hours time and £450 cost limit set out within Section 12 of the Freedom of Information Act.
