Freedom of Information Request: Our Reference CTMUHB_262_26

You asked:

Can I please request the following information:

Could I please get the numbers for each year starting from 2020 and the number so far for 2026 if that is possible?

1. How many individuals have presented to your health board in the last five years with complications related to hair transplants?

Outpatient information is not coded. Therefore, we are only able to provide the number of admissions for patients with a diagnosis code of complication due to hair transplants.

For the date range 01/01/2020 to date, we can confirm that zero (0) patients were admitted with complications related to hair transplants.

2. And how many of those complications resulted in treatment?

N/A. Please see response to question 1.
