Freedom of Information Request: Our Reference CTMUHB_263_26

You asked:

I am writing to request information under the Freedom of Information Act 2000 (FOIA) (or the Freedom of Information (Scotland) Act 2002 (FOISA), where applicable). Please treat this as a request for recorded information held by Prince Charles Hospital.

This request relates specifically to services delivered within your Private Patient Unit (PPU) only.

This request is to understand publicly recorded information about headache and migraine services within PPUs to inform health system engagement planning. No commercial promotion is intended.

We are contacting the FOI/Information Governance function only for recorded information. We are not requesting any clinical advice or patient-level data.

Requested information (please answer for your organisation, relating ONLY to the Private Patient Unit):

1. Headache and migraine services within the PPU

(a) Does your Private Patient Unit offer services for the assessment and/or management of headache and/or migraine?

(b) If yes, please provide:

- The names of clinicians who deliver headache and/or migraine services within the Private Patient Unit
- The names of Business Manager and/or overall Services Manager responsible for overseeing the headache and migraine clinics
- Their job titles
- Their primary specialty (e.g., neurology, pain, or other)

Our response:

We can confirm that Prince Charles Hospital does not have a Private Patient Unit (PPU). Therefore, we do not hold the information requested.
