### Our response:

We are unable to provide the number of A&E attendances by patients of No Fixed Abode/Address due to heat related illness as A&E data is not coded.

However, we can provide the number of admissions for patients who attended the A&E department with a "No Fixed Abode/Address" and were admitted with a diagnosis of any of the following:

Please note we do not use SNOMED CT coding; we have used the ICD10 codes as shown below.
