- Dimethyl fumarate
- Etanercept - Enbrel
- Etanercept Biosimilar
- Guselkumab
- Infliximab - Remicade
- Infliximab Biosimilar
- Ixekizumab
- Risankizumab
- Secukinumab
- Tildrakizumab
- Ustekinumab - Stelara
- Ustekinumab Biosimilar
- Omalizumab
- Spesolimab

Our response:

Please find the patient numbers for the selected preparations below. The preparations were issued between February 2026 and April 2026, which is the most recent months for which data can be provided.

Where the figures are less than 5, this has been denoted by **. The exact figures have been withheld due to the low numbers involved.

Where numbers are low we have considered that there is the potential for the individuals to be identified from the information provided, when considered with other information that may also be in the public domain. Also, responses under the Freedom of Information Act are made available to the public at large. The data is classed as personal data as defined under the General Data Protection Regulation (GDPR) and Data Protection Act 2018 and its disclosure would be contrary to the data protection principles and constitute as unfair and unlawful processing in regard to Articles 5, 6, and 9 of GDPR. We are therefore withholding this detail under Section 40(2) of the Freedom of Information Act 2000. This

exemption is absolute and therefore there is no requirement to apply the public interest test.

• Adalimumab – Humira	0
• Adalimumab Biosimilar	72
• Apremilast – Otezla	0
• Apremilast generic	35
• Bimekizumab	17
• Brodalumab	**
