

Freedom of Information Request: Our Reference CTMUHB_257_21

You asked:

Please could you supply me with the data for the recorded deaths with only 2019-nCoV as the sole cause between 01/01/20 - 12/06/21.

Our response:

112 Cwm Taf Morgannwg University Health Board residents only, have a recorded date of death between 01/01/2020 – 12/06/2021 from Covid-19 with no co-morbidities.

Please note, the source of the data used for this response is the Office of National Statistics (ONS) data Registered Deaths, supplied to us via NHS Wales Informatics Service (NWIS). As such, there will be a time lag on the reporting of deaths, as ONS data awaits the official clinical determination of death.

This is the only source of data that we have to be able to determine whether somebody died directly of Covid-19 without any co-morbidities (the figures most commonly cited in the media are the deaths within 28 days of a positive pathology test which is a different metric taken from the Welsh Patient Administrative System (WPAS) /Office of National Statistics (ONS) / Master Patient Index (MPI) systems and combined with Welsh Laboratory Information Management System (LIMS) data. MPI is the Master Patient Index. It is a national system used to help multiple national and local systems update their demographics with changes from other systems. (E.g. if a death is recorded in one Health Board's WPAS system then another can be automatically updated with that change). Please note that our WPAS doesn't accept these changes automatically like some other Health Boards.

There were unfortunately other deaths where COVID-19 was listed as a cause of death, but all of these had other causes of death listed as well and so are not applicable to this response.
